

# ROAD TO RESEARCH (R2R)

## Meet the Researcher

A FREE VIRTUAL PROGRAM  
for Middle School Students!

**STARTING**  
**Saturday, October 24th**  
**@ 10:00am!**

**Sign Up Today!**  
**[bit.ly/34EbWR3](https://bit.ly/34EbWR3)**

The LGC has partnered with the College of Engineering for this program which enables CMU undergraduate and graduate students to virtually "meet" local Pittsburgh middle school students to share their research, talk about lab experiences, participate in a Q&A session, and complete a related hands-on activity.

Middle school students will meet a new researcher every two weeks via Zoom in the afterschool time period and on certain Saturdays. This program is designed to be accessible with most activities only requiring common household items and an Internet connection.

### **FALL 2020** **TOPICS INCLUDE:**

- 3D Printing
- DNA Origami
- DNA Microswimmers & Machine Learning
- Soft Robotics
- And More!

Facilitated by

**Carnegie Mellon University**  
Leonard Gelfand Center +  
College of Engineering
