

Squares below are accurately correct sizes of power plants.

Energy efficiency = 0.5 TWh / year, Land Impacts=0 football fields

450 football fields per TWh

**Wind Power**  
**0.5 TWh/year**

20 football fields per TWh

**Nuclear Power**  
**5 TWh/year**

80 football fields per TWh

Coal Power  
5 TWh/year
