The Threats We Face in a Connected World

Cybercrime is constant – and we stay vigilant.

Scams, identity theft, and digital fraud now reach employees through text, calls, email, social media, and the web

Today's attacks are highly personalized, using leaked data, AI, and impersonation to appear legitimate

One moment of trust — clicking a link or answering a call — can trigger financial loss, account takeover, or identity theft

Employees are targeted at home and at work, often through personal devices they use every day

1 victim of identity theft every 5 seconds
*over 79M impacted to date

1 in 4 people have been victimized by a scam in the last year

60% of full-time U.S. employees are stressed about personal finances

Nearly 50% of consumers have experienced a data breach

Norton LifeLock Benefit Plan Overview

Identity Protection

Keep employees' information and finances safer

- Identity theft and financial fraud can disrupt employees at any stage of life.
- Proactive monitoring and expert support help limit long-term impact, protecting financial stability, confidence, and productivity as responsibilities grow.

Financial Wellness

Help employees manage and grow their finances

- Financial confidence evolves over time.
- Secure financial wellness tools help employees understand, manage, and feel confident about their finances at every stage.

Privacy Online

Give employees control of their personal data

- As digital footprints expand over time, personal data becomes easier to exploit. Privacy tools help employees reduce data exposure–lowering the risk of scams and identity theft.

Digital Protection

Help protect employees' online life from scams and security threats

- Scams and cyberthreats increasingly target entire households, not just individuals.
- Always-on digital protection helps reduce exposure across everyday devices, supporting employees as their digital lives expand to include families, shared finances, and multiple users.

Identity and Financial Protection

Identity & Social Security Alerts

We monitor our network and alert you if we detect a bank, utility or other company (i.e. phone carrier) attempting to verify your identity so you can take action to help protect your identity, if this was not initiated by you.

Million Dollar Protection Package

If you became a victim of identity theft, you will be covered for personal expenses you incur and money stolen as a result of identity theft, and we will provide lawyers and experts, up to $1 million, if needed to help resolve your case,

Bank Account Takeover Alerts

Smart identity thieves use their computers to take over accounts or add new account holders to existing accounts. LifeLock helps protect your finances by monitoring for these changes and alerting you.

Checking & Savings Account Application Alerts

Continuously searches for your personal information in new bank account applications at national banks, local banks, and credit unions.

Dark Web Monitoring

LifeLock patrols the Dark Web and notifies you if we find your information, such as your username, password, IP address, or gamer tag.

Genie Scam Protection Pro

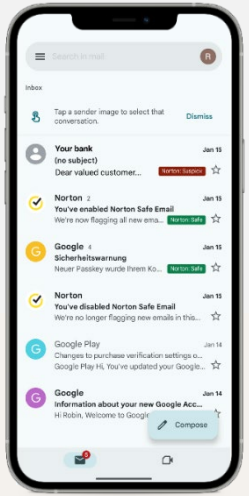

Safe SMS

Detects sophisticated scams in text messages, giving you advanced protection against scams and peace of mind when checking your messages.

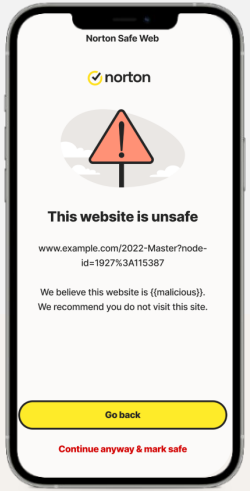

Safe Call

Automatically blocks scam calls or labels incoming calls as scam, junk, or a business, so you'll know if you should answer.

Safe Email

Proactively scans and flags both safe and suspicious emails, detecting sophisticated scams so you'll know it it's a scam before opening.

Safe Web

Helps protect you from scams when shopping or browsing online by checking for hidden scams in the pages you visit.
