How to set up direct deposit in your online account

This article outlines how to set up a checking or savings account in your online account to receive reimbursements or distributions via direct deposit. To watch a video tutorial, click here. 

Note: You can get your money faster by adding your bank account. There's no minimum reimbursement requirement for direct deposit; however, a \$25 minimum is required for checks to be issued right away. Reimbursements that don't meet this minimum requirement will be issued after additional claims are submitted to bring the total to at least \$25 or at the end of the month.
