

List of Known Misinformation and Disinformation Regarding Corona Virus in Social Media
IDeaS Center and CASOS Center – Under Direction of Dr. Kathleen M. Carley
Last updated 3/23/2020

Stories containing inaccurate information regarding COVID 19 fall into at least three categories:

- 1) Stories relating inaccurate information about cures or preventative measures or treatments that make it worse
- 2) Stories relating inaccurate information about the nature of the virus
- 3) Stories relating inaccurate information that are conspiracy stories
- 4) Stories relating false diagnosis procedures
- 5) Stories relating inaccurate information about emergency responses
- 6) Stories relating inaccurate but funny or feel good stories

We note that there are also stories containing inaccurate information with respect to a) the number of deaths, politicians' response, and other government activities. Such stories have not been tracked.

Following is a list of stories of each type.
