PA Vaccine Conversations Project

- ❑ This report is an effort to summarize social media conversations around COVID-19 issues in Pennsylvania, with a focus on vaccination. It contains an analysis of the general topics related to COVID-19 vaccination. This includes discussions related to COVID-19 regulations, mandates, masks, pro-and anti-vaccination campaigns, science messages, misinformation, disinformation, conspiracy theories, and vaccine hesitancy messages.
- ❑ Anti-Vax messaging includes vaccine hesitancy messages, opinions, questions, policy health and science related information, misinformation, disinformation, and conspiracy theories.

8/19/2022

Measures for countering health disinformation

- ❑ Anti-vaccine narratives are still pervasive on social media, while there are not that many counter-narratives about the positive effects of vaccines;
- ❑ There is a need for a reframing of social media as a medically and socially valuable resource and platform because of its high impact on society;
- ❑ Healthcare organizations need to implement social media strategies to create and expand conversations countering disinformation on social media;
- ❑ It would be helpful for health communicators to cooperate with local influencers who could spread pro-vaccination messages. Another strategy could be to motivate health practitioners to use social media as a channel for communication with the public;
- ❑ "Strategies focused on meaningfully and safely engaging HCPs on social media, promoting interconnectivity across the medical and public health communities on COVID-19 vaccine truths, and sustaining these messaging efforts across vaccine implementation stages will be our best hope of preventing any more missed doses and promoting "misinformation immunity" for all." (Hernandez et al. 2021. "The COVID-19 vaccine social media infodemic: healthcare providers' missed dose in addressing misinformation and vaccine hesitancy.")

8/19/2022

Measures for countering health disinformation

- ❑ As a trusted source of information on vaccines, family physicians play a crucial role in driving vaccine acceptance;
- ❑ Sharing stories, building trust with patients, addressing pain associated with vaccination, presenting vaccination as the default approach early on, focusing on the benefits of protection, and being honest about side effects could also help to promote pro-vaccination attitudes (Shen & Dubey 2019. "Addressing vaccine hesitancy: Clinical guidance for primary care physicians working with parents");
- ❑ It is helpful to provide more information for the patients about the possible disinformation strategies they may deal with, such as manipulating emotions to promote misinformation and conspiracy theories to sow confusion and create division. Inoculation strategy may help to prepare the community by presenting counterarguments to misinformation and raising awareness of negative emotional appeals spread by anti-vaccine campaigns;
- ❑ Framing vaccination as a concrete, actionable strategy to reduce COVID-19 risk may help to address negative emotions, increase self-efficacy and ensure the feelings of control over reducing COVID-19 risk.

Analysis of Tweeters - Super Spreaders

- ❑ Super Spreaders are users which generate content that is shared often, and hence spread information effectively.

Analysis of Tweeters - Super Friends

- ❑ Super Friends are users that exhibit frequent two-way communication, facilitating large or strong communication networks.

Analysis of Tweeters - Other Influencers

- Other Influencers are users which have an active network presence, by tweeting often or mentioning users often, and operate in central parts of the conversation, such as by using important hashtags, or mentioning important users.

Accounts Referenced by the Most Tweets

- This shows the tweeters that are most often referenced (e.g. mentioned) in PA tweets. Value is the number of tweets that reference the agent.

Trending Tweets July 29– August 4

Tweets that are the most forwarded, either by retweet, reply, or quote:

- ❑ In his Rome speech on religious liberty, Justice Alito mocked "foreign leaders" who condemned his opinion overturning Roe v. Wade, including Boris Johnson, Macron, Trudeau, and ... Prince Harry. Of Boris, Alito quipped: "He paid the price." <https://t.co/NPqalw0KA6> <https://t.co/xC0qguZ31n>
- ❑ You were denied organ transplants. You were fired from your job. You were banned from family events. You were kicked out of college. You were denied access to loved ones in the hospital. You were censored and deleted.. Over a vaccine Dr. Birx NOW admits was ineffective.
- ❑ Democrats ... A man is not a man. A woman is not a woman. Inflation is not inflation. A recession is not a recession. A vaccine is not a vaccine. An open border is not an open border. If you don't believe these things - you're a racist, science-denier, and a Putin puppet.
- ❑ NEW: New York State Health Department is urging all New Yorkers, including kids, to get vaccinated against polio right away if they have not been already. Following the case in Rockland County, polio virus was found in wastewater samples from early June, health dpt says.
- ❑ @RNCResearch Correction, we called for vaccine availability for kids and masking when necessary to keep our children safe... get your facts right !!!
- ❑ From his \$1 trillion infrastructure bill to vaccine supply plans, Biden's slowly but substantially re-engineered significant parts of the American economy — achievements that have been obscured by COVID, inflation and broad disenchantment. <https://t.co/SX1r85FwKV>
- ❑ "How can you force someone to take a vaccine to stop transmission when that vaccine doesn't stop transmission?" - Dr. Joe Ladapo, Florida Surgeon General (aka the greatest surgeon general in the country) <https://t.co/Vx3WzVd0ti>
- ❑ Brought to you by... pfizer! <https://t.co/B5Zw9tIAzm>
- ❑ People lost their job for not taking a vaccine that Dr. Birx admitted didn't work. Let that sink in.
- ❑ Brought to you by Pfizer! <https://t.co/wHoM9cqylq>
- ❑ Pfizer stopped testing on animals because they kept dying? That's not very reassuring <https://t.co/PtsWZh9ZAY>
- ❑ In the name of a virus, government gave you: \$3,200 of checks \$30,000 of debt A wrecked economy Isolation from family Closed businesses Shortages High prices A vaccine that doesn't immunize you Medical tyranny Dwindling savings due to inflation And claimed this saved you.
