8/31/2022

1

PA Vaccine Conversations Project

- ❑ This report is an effort to summarize social media conversations around COVID-19 issues in Pennsylvania, with a focus on vaccination. It contains an analysis of the general topics related to COVID-19 vaccination. This includes discussions related to COVID-19 regulations, mandates, masks, pro-and anti-vaccination campaigns, science messages, misinformation, disinformation, conspiracy theories, and vaccine hesitancy messages.
- ❑ Anti-Vax messaging includes vaccine hesitancy messages, opinions, questions, policy health and science related information, misinformation, disinformation, and conspiracy theories.

2

Report Overview August 12 – August 18

❑ Masks, Employee mandates, Passports, Heart-related side effects, Breakthrough infections are trending this week;

❑ Trending stories: justthenews.com/nation/states/center-square/pittsburgh-philadelphia-still-have-vaccine-mandate-city-workers Pittsburgh, Philadelphia still have a vaccine mandate for city workers; preprints.org/manuscript/202208.0151/v1 Cardiovascular Effects of the BNT162b2 mRNA COVID-19 Vaccine in Adolescents; wsj.com/articles/biden-and-twitter-censorship-alex-berenson-covid-vaccines-white-house-social-media-11660335186 The White House and Twitter Censorship;

❑ Popular anti-vax tweets: Moderna's CEO says they are throwing away 30 million covid shots because no one anywhere in the world will take them. Yeah, no kidding, the shot is garbage. And everyone is slowly realizing it. It's why no parents are getting it for their kids too: <https://t.co/dOKUXM0tBw>; The CDC now says that due to breakthrough infections and natural immunity there is no reason to treat vaccinated and unvaccinated people differently. Twitter banned users who pointed this out last year. Never forget that people were censored for saying what the CDC is saying now; Now that the CDC no longer differentiates between Covid vaccinated/unvaccinated individuals, every employee fired for being unvaccinated should be given their job back with a formal apology and backpay; According to Dr. Naomi Wolf, who runs a crowdsourced project to analyze 300,000 Pfizer documents released via a FOIA request, 44 percent of pregnant women who participated in the drug maker's COVID-19 vaccine trial lost their babies. <https://t.co/48fGypwSlw>

Countering disinformation August 12 – August 18

- ❑ Articles and fact-checking stories debunking disinformation for the last week:
- ❑ Flawed calculation fuels falsehood on Pfizer vaccine and pregnancies <https://apnews.com/article/fact-check-pfizer-covid-vaccine-trial-44-percent-miscarriage-545842340316>
- ❑ Did the Pfizer vaccine cause miscarriage in 44% of pregnant women during trial? How a viral blog post made flawed calculations <https://www.opindia.com/2022/08/did-pfizer-covid-vaccine-cause-miscarriage-in-44-pregnant-women-viral-claims/>
- ❑ Fact Check-Headline that claims Denmark has banned COVID-19 vaccines for children is misleading <https://www.reuters.com/article/factcheck-coronavirus-denmark-idUSL1N2ZS0J8>
- ❑ Fact check: No, Denmark has not banned COVID vaccination of children <https://www.marketwatch.com/story/fact-check-no-denmark-has-not-banned-covid-vaccination-of-children-01660962451>
- ❑ Fact Check-Study of Thai teenagers did not find one third experienced heart effects after COVID vaccination <https://dunyanews.tv/en/FakeNews/664264-Fact-Check-Study-of-Thai-teenagers-did-not-find-one-third-experienced-he>

8/31/2022

Measures for countering health disinformation

- ❑ Anti-vaccine narratives are still pervasive on social media, while there are not that many counter-narratives about the positive effects of vaccines;
- ❑ There is a need for a reframing of social media as a medically and socially valuable resource and platform because of its high impact on society;
- ❑ Healthcare organizations need to implement social media strategies to create and expand conversations countering disinformation on social media;
- ❑ It would be helpful for health communicators to cooperate with local influencers who could spread pro-vaccination messages. Another strategy could be to motivate health practitioners to use social media as a channel for communication with the public;
- ❑ "Strategies focused on meaningfully and safely engaging HCPs on social media, promoting interconnectivity across the medical and public health communities on COVID-19 vaccine truths, and sustaining these messaging efforts across vaccine implementation stages will be our best hope of preventing any more missed doses and promoting "misinformation immunity" for all." (Hernandez et al. 2021. "The COVID-19 vaccine social media infodemic: healthcare providers' missed dose in addressing misinformation and vaccine hesitancy.")

8/31/2022

Measures for countering health disinformation

- ❑ As a trusted source of information on vaccines, family physicians play a crucial role in driving vaccine acceptance;
- ❑ Sharing stories, building trust with patients, addressing pain associated with vaccination, presenting vaccination as the default approach early on, focusing on the benefits of protection, and being honest about side effects could also help to promote pro-vaccination attitudes (Shen & Dubey 2019. "Addressing vaccine hesitancy: Clinical guidance for primary care physicians working with parents");
- ❑ It is helpful to provide more information for the patients about the possible disinformation strategies they may deal with, such as manipulating emotions to promote misinformation and conspiracy theories to sow confusion and create division. Inoculation strategy may help to prepare the community by presenting counterarguments to misinformation and raising awareness of negative emotional appeals spread by anti-vaccine campaigns;
- ❑ Framing vaccination as a concrete, actionable strategy to reduce COVID-19 risk may help to address negative emotions, increase self-efficacy and ensure the feelings of control over reducing COVID-19 risk.

Trending Tweets August 12 – August 18

Tweets that are the most forwarded, either by retweet, reply, or quote:

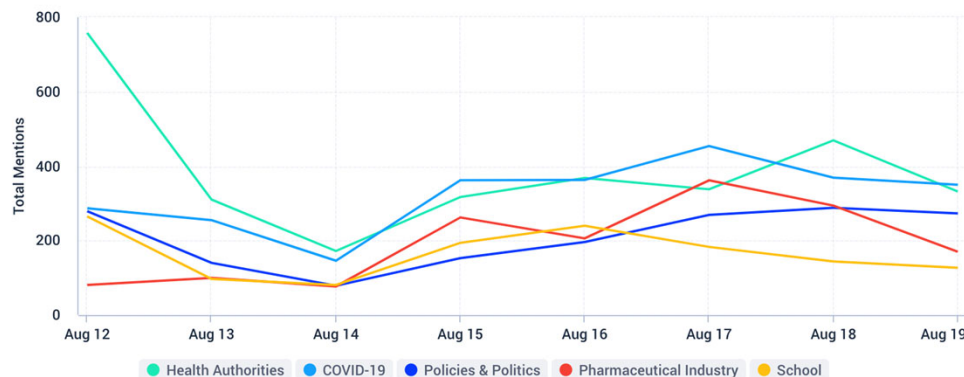

- ❑ Moderna's CEO says they are throwing away 30 million covid shots because no one anywhere in the world will take them. Yeah, no kidding, the shot is garbage. And everyone is slowly realizing it. It's why no parents are getting it for their kids too: <https://t.co/dQKUXM0tBw>
- ❑ The CDC now says that due to breakthrough infections and natural immunity there is no reason to treat vaccinated and unvaccinated people differently. Twitter banned users who pointed this out last year. Never forget that people were censored for saying what the CDC is saying now.
- ❑ Now that the CDC no longer differentiates between Covid vaccinated/unvaccinated individuals, every employee fired for being unvaccinated should be given their job back with a formal apology and backpay.
- ❑ I would like to let you know that I have tested positive for #COVID19. I am thankful to have received four doses of the Pfizer-BioNTech vaccine, and I am feeling well while experiencing very mild symptoms. I am isolating and have started a course of Paxlovid.
- ❑ Millennials texting their parents, "Did I get the polio vaccine?"
- ❑ Ron Johnson just said that Medicare negotiating prices is "punishing the pharmaceutical industry." He is in the pocket of Big Pharma and he doesn't even try to hide it. Meanwhile, people are forced to spend thousands of \$\$\$ a year on medications just to survive.
- ❑ A year ago today, we found out that Rand Paul had been secretly hiding a stock purchase in COVID treatment while telling people not to get vaccinated. While we lost our loved ones, he was trying to get rich. NEVER FORGET.
- ❑ 1/2 FOX News Stuns The World With Unfiltered Truth: "This Vaccine Is The Most Dangerous Vaccine Ever Created" <https://t.co/uMDSxGXddL>
- ❑ According to Dr. Naomi Wolf, who runs a crowdsourced project to analyze 300,000 Pfizer documents released via a FOIA request, 44 percent of pregnant women who participated in the drug maker's COVID-19 vaccine trial lost their babies. <https://t.co/48fGypwSlw>
