

Technology Ventures Roadmap

For students in the MSSM program who are interested in launching their own new venture or pursuing a career in entrepreneurship.

1 Take the Tech Ventures Concentration Courses

The concentration features [elective courses](#) designed to prepare you to take your product or service idea to conceptualization:

- 49-802: Innovation & Entrepreneurship (1st or Final Fall semester)
- 49-803: Legal Issues in New Venture Creation (Spring, Mini 3)
- 49-801: Venture Governance (Spring, Mini 4)
- 49-800: Start-Up Creation in Practice (Final Fall semester)
- Add the Technology Ventures Track to your [Stellic](#) Audit
 - To ensure that you are taking the four courses included in the Technology Ventures concentration, add the Technology Ventures Track to your Stellic Audit. Details on how to add the TV track to your audit [can be found here](#).

2 Connect with the Swartz Center for Entrepreneurship

- Review the opportunities shared with students during New Student Orientation.
- Subscribe to the [Swartz Center Newsletter](#) to stay up-to-date.
- Have a question about how to get involved? Visit Namrata Banerjee during her CMU-SV Office Hours.

3 Engage with the CMU-SV Entrepreneurship Club

The Entrepreneurship Club is dedicated to creating a thriving entrepreneurial community that lasts beyond CMU-SV.

- Attend Entrepreneurship Club Events throughout the year and even get involved as a leader. Leaders have the opportunity to plan entrepreneurship-related events & initiatives for the CMU-SV community.
- Email sv-entrepreneurs@andrew.cmu.edu to become a member.

"The mentorship provided by VentureBridge is unmatched! I had so many great mentors throughout the program. There were dozens of people who took me under their wing and supported me in any way they could."
