

THE HENRY ARMERO MEMORIAL AWARD FOR INCLUSIVE CREATIVITY

AWARD

The Henry Armero Memorial Award is an **annual recognition of a CMU student project that focuses on creativity, eclecticism, individuality and inclusiveness**. The **\$2,500 award** remembers Henry Armero, a BCSA student, artist, and friend, by celebrating his expressive creativity and connection with others. More about Henry and past award winners can be found at the Museum of Henry, along with his work and other work he has inspired.

MISSION

This award hopes to recognize projects that find innovative ways of fostering on- and off-line **community**. Projects may take any form—from traditional 2D or 3D art objects to performances, digital art, or unexpected combinations of media—as long as they engage with the spirit of the award.

ELIGIBILITY

The Armero Award is open to **all undergraduate CMU students**, from any major, as well as to both individual projects and group collaborations. Projects may already be in progress, continued or expanded in scope from prior work to successfully meet the completion deadline.

SHOWCASE

The selected project will be exhibited on campus as part of the annual BXA Kaleidoscope Student Showcase in April 2026 and the awardee is expected to attend the event reception.
