

CMU Student Skill Development

Undergraduates report that their CMU experiences contribute **"quite a bit"** to their knowledge and skills in:

1

Thinking analytically
& logically

2

Ability to learn
on your own

3

In-depth knowledge of a
field or discipline

Students report smaller
contributions in other core skills crucial for
personal and professional growth.

Institutional Responses:

- Transformation of Computing@CM to **Core@CMU**
- Development of the **Core4 dashboard** to help CMU students develop key skills
