

Glen de Vries

Glen de Vries is the co-founder of Medidata, the most used cloud platform around the world for clinical development. Glen has been driving Medidata's mission since the company's inception in 1999: Powering smarter treatments and healthier people. In 2019, Medidata was acquired for \$5.8 billion by Dassault Systèmes, where Glen now serves as the Vice-Chair of Life Sciences & Healthcare.

Glen's peer-reviewed publications have appeared in Applied Clinical Trials, Cancer, The Journal of Urology, Molecular Diagnostics, and other journals. He serves as a trustee of Carnegie Mellon University, a HITLAB Fellow, and is the author of The Patient Equation (de Vries & Blachman, 2020).

Glen received his undergraduate degree in molecular biology and genetics from Carnegie Mellon University (MCS '94), worked as a research scientist at the Columbia Presbyterian Medical Center, and studied computer science at New York University's Courant Institute of Mathematics.

You can follow Glen on social media at @CaptainClinical.
