ZOOM CLIENT INITIALIZATION (Mac)

1. Launch the Zoom App from the Applications Menu or Dock.
2. Click Sign In when Zoom launches.

3. On the Sign in Screen Select Sign In With SSO on the right hand side:
4. From the Sign In With SSO Screen enter cmu for the Company Domain and hit continue.

5. This should forward you on to a CMU log on page, log in with your Andrew ID and Password.

6. After logging in click Launch Zoom. If you get prompted to allow the zoom.us app to launch click Allow. Otherwise you can click Launch Zoom.
7. From the Zoom Screen select the Settings button on the right hand side:

8. From the settings window select Video along the left hand side.
9. If you get prompted to Enable camera access for Zoom, click Go To Settings. If not proceed to step 13.
10. Click the lock in the lower left-hand corner of the settings page to authenticate as an administrator on the computer. Then enter a username and password that is used for logging onto the computer.

11. Make sure the check box next to zoom.us is selected then close this window.
12. If you had to do step 10 and 11 Zoom will close, so re launch it from the Applications Folder or dock and then log back in.

14. Select the Audio tab along the left hand side of the settings page, and then select “Join audio by computer when joining a meeting.”

15. Then click profile on the left-hand side of the settings window, and then select View Advanced Features.
16. This should open an Internet Browser window with the advanced settings window.
17. There is a large list of settings, you will want to enable these four. The first two are near the top

![Settings Images]

18. Finally, under the Accessibility Settings, back in the Zoom Client Settings, you want to select Always Show Meeting Controls.
If you have any issues with this please contact hsshelp@andrew.cmu.edu or call 412-268-5136 for assistance.
