Carol Livermore is an Associate Professor in the Department of Mechanical and Industrial Engineering at Northeastern University. She received her B.S. in Physics from the University of Massachusetts, Amherst in 1993, and her A.M. and Ph.D. in physics from Harvard University in 1995 and 1998, respectively. She then joined the Massachusetts Institute of Technology, first as a postdoc and research scientist and then as a member of the faculty in the Department of Mechanical Engineering. She joined Northeastern University in 2011, where her current research focuses on micro technologies to address key challenges in energy, assistive technology, tissue engineering, and micro-scale vacuum systems. ** livermore@neu.edu
