

**Dr. Ki-Taek Lim**  
**Kangwon National University**

<http://kitaek.wix.com/biosystems>

Ki-Taek Lim is an assistant professor of the department of biosystems engineering at Kangwon National University, where he has been since February, 2015. Prior to his appointment, he has served on the Institute for Nanoscience & Engineering, University of Arkansas as a postdoctoral fellow. His research interests center upon improving the understanding, design, and performance of engineering approaches for controlled stem cells converging the bio/nano-technologies.
