

Dr. Soo Hong Noh
Yonsei University

Professor Noh is a graduate of Yonsei University in Korea and had a Ph.D. in chemical engineering from McMaster University, Canada. He started his career with Zenon Environmental Inc.(now GE Water) and joined the school of environmental engineering Yonsei university in Korea in 1989. Professor Noh has been active in membrane research for water and wastewater treatment. He was the president of Membrane Society of Korea and his main research interests are in the area of water purification and reuse by using membrane hybrid processes.

He founded a research group for Cheonggyecheon restoration in 2000 and initiated Cheonggyecheon restoration movement. He played vital role in the restoration process and his group received 2004 Seoul Metropolitan Policy Grand Award for the Contribution to Cheonggyecheon Restoration Project. Currently, he is the director of center for Eco-Smart Waterworks system sponsored by Ministry of Environment Korea.
