

Dr. Young Hee Lee
IBS, Sung Kyun Kwan University

<http://shb.skku.edu/nanotube/>

Professor Young Hee Lee obtained his Ph. D. at Kent State University in 1986 and did post-doctoral work in the Ames National Laboratory at Iowa and Michigan State University. He joined the physics faculty at Chonbuk National University in Korea and became a full professor in 1999, and then moved to the Sungkyunkwan University in Korea in 2001. In 2012 he was selected as the Director of the Center for Integrated Nanostructure Physics, Institute for Basic Science, located at Sungkyunkwan University, which he led for the first 3 years of its existence. Lee is a member of the Korea Academy of Science and Technology (2007) and nominated as the first Fellow of SKKU in 2007.

Young Hee Lee has received numerous major awards for his work in the field of carbon-based nanomaterials and nanodevices, and two-dimensional materials physics; these include Science Award in Korean Physical Society (2005), Nomination as 'The National Scholar of Korea' (2005), the Presidential Award (2008), Lee Hsun Award, Chinese Academy of Sciences, China (2007), and Sudang Award (2014).
