

Hedi Mattoussi, Professor
Florida State University
Department of Chemistry and Biochemistry
& Integrated Nanoscience Institute
Tallahassee, FL 32306
Email: mattoussi@chem.fsu.edu

Hedi Mattoussi is a Distinguished Research Professor at the Florida State University, Department of Chemistry and Biochemistry, and a fellow of the American Chemical Society, ACS (class of 2011), the American Physical Society, APS (class of 2014) and the Royal Society of Chemistry, RSC (class of 2015). Prior to joining FSU in 2009, he spent 12 years working as a senior Research Scientist at the US Naval Research Laboratory (Washington, DC). He earned a Ph.D. in Condensed Matter Physics in 1987 and a Habilitation to direct Research in Materials Physics in 1994, both from the University of Pierre & Marie Curie (Paris VI). He presently focuses on the development of inorganic nanoparticles and clusters and interfacing them with biological receptors.

Honors and Fellowships

- Nanqiang Academic Lecture, Xiamen University, 2019
- Distinguished Research Professor Award, Florida State University, 2018
- Fellow of the Royal Society of Chemistry (FRSC, UK), Class of 2015
- Fellow of the American Physical Society, Class of 2014
- Fellow of the American Chemical Society, Class of 2011
- 2008 Thomas Edison Sigma Xi Basic Science Award
- Gambrinus Guest Professor Fellowship, University of Dortmund, Germany, Summer 2006
- Visiting Professor, Universitat Autònoma de Barcelona, Department of Physics, Spain; Summer 2005
