

Speaker Profile

Name : Kim, DaiSik

Title: Professor

Institute : School of Physics, Seoul National University

Personal

Born on January 8th, 1963, Married with three children

Education

Ph. D. in Physics, U. C. Berkeley, Berkeley, CA, USA (May 1990)

M. A. in Biophysics, U. C. Berkeley, CA, USA (Dec. 1986)

B. A. in Physics, Seoul National University, Seoul, Korea (Feb. 1985)

Professional Experience

Professor, School of Physics, Seoul National University (1994–present)

Senior Scientist, Center for Laser Research, Oklahoma State University (1993–1994)

Postdoctoral Researcher, AT&T Bell Labs., Holmdel (1991–1993)

Postdoctoral Researcher, Oklahoma State University (1990–1991)

Graduate Student Research Assistant, Lawrence Berkeley Laboratories (1986–1990)

General Research Interests

Ultrafast phenomena in semiconductors

Nano-optics of surface plasmon structures

Single molecule biophysics

Hobbies and Extra-curricular Activities

Medical history

Social/gender problems

English literature

Photography

Awards and Honors

Korea Young Scientist Award, 2002

Human Rights Award by the International Symposia on Genital Integrity, 2000

"For courageously bringing the issue of genital integrity rights of children to South Korea"
