### **Dr. Michael V. Pishko**

#### **Unocal Professor and Department Head**

Texas A&M University, College Station

**Michael Pishko** is the Unocal Professor and Head of the Department of Chemical Engineering, Texas A&M University. Prior to joining the faculty at Texas A&M, he held the rank of Distinguished Professor at Penn State University from 2001 to 2007. He received his B.S. and M.S. in chemical engineering from the University of Missouri-Columbia and his Ph.D. in chemical engineering from the University of Texas at Austin. He also received postdoctoral training at the Massachusetts Institute of Technology. The Pishko group investigates biosensors, drug delivery systems, and implantable biomaterials. For his research, he has received an NSF CAREER award, was named an Alfred P. Sloan Research Fellow, and was elected to the College of Fellows, American Institute for Medical and Biological Engineering. Dr. Pishko has co-authored over 90 peer-reviewed publications and is a co-inventor of 19 issued U.S. patents.
