Name: Sang-il Park

Title: CEO

Institute: Park Systems Corp.

Sang-il Park is the Chairman and CEO of Park Systems, a leading manufacturer of Scanning Probe Microscope (SPM) (1997~present). Earlier, Dr. Park founded Park Scientific Instruments (PSI) in California, where he served as the Chairman and CEO for 9 years (1988~1997). Prior to founding PSI, he worked with Prof. C.F. Quate at Stanford University as a Research Associate.

Dr. Park authored and co-authored numerous research papers, text books, and eighteen U.S. patents in the field of SPM. He received his Ph.D. in applied physics from Stanford University and his B.S. in physics from Seoul National University.

Currently, Dr. Park is a Director of the Korea Nanotechnology Research Society, a member of the Nanotechnology Steering Committee at Ministry of Science and Technology of Republic of Korea, and the Nanotechnology Information Committee at KISTI.

Dr. Park received numerous awards, including Iron Tower Order of Industrial Service Merit (by Republic of Korea, 2005), Industrial Technology Innovation Award (by Minister of Commerce, Industry, and Energy, Republic of Korea, 2004), IR52 Jang Young Shil Award (by Minister of Science and Technology, Republic of Korea, 2004), Gold Prize Award at nano tech 2003 + Future (by NEDO, JETRO, AIS, Japan, 2003).
