

Did you know that we have two catalogs?

One catalog is called the “Traditional Illustrated Catalog” and the other is our “Augusoft Online Catalog”. You access the online catalog when you sign in to register for your courses. This catalog has literally all the same information found in the traditional catalog, minus the pictures.

Several years ago a survey was generated to learn how members search for and pick their courses. Some do so by Study Leader, while others select their courses based on either the day of the week or location. While all the same information can be found in the traditional catalog it is so much easier to search using the Augusoft Online Catalog.

How to Search using the Augusoft Online Catalog:

Log into the Osher website: cmu.edu/Osher. If you don't have your login information, please email the Osher office at Osher@cmu.edu.

After you log in, at the top of the Welcome screen you will see this:

The screenshot shows the Osher Lifelong Learning Institute website interface. At the top left is the Osher Lifelong Learning Institute logo, which includes the text "OSHER LIFELONG LEARNING INSTITUTE" inside a circle, followed by "at Carnegie Mellon University". To the right of the logo is a dark grey box containing the text "Welcome, Hank", "Logout", "View Cart (0)", and "Donate". Below this is a search bar with the placeholder text "search for a class..." and a green "GO" button. Below the search bar is a grid of navigation links. A green arrow points from the text "From here you can search for classes" to the search bar. A purple arrow points from the text "By category: i.e.: Art, or History by clicking on the category in the box above" to the "Learn By Doing" link in the navigation grid. A brown arrow points from the text "By category: i.e.: Art, or History by clicking on the category in the box above" to the "Search" link in the navigation grid.

You can also do a more specific search by clicking on the **Search** button. You can enter class starting dates, instructor, class id, city (CMU campus, Community Site, or Online). You will see this screen:

This course uses an extensive array of illuminating slides and apt descriptions to illuminate the essential players, landmark structures, and public art integral to Oakland's development into a renowned civic center. We will cover the full panoply of Oakland's treats: its horticultural masterpiece; its world class museum; its historic ball park; its cathedral devoted to education; its enormous war memorial; its chapel replete with inspiring stained glass; its fashionable and elegant hotel; its industrial research center built extravagantly despite the Depression; its social clubs, each an architectural gem; its residential district labeled "the best inner city neighborhood in the nation"; Carnegie Tech's first four buildings; its historic public park loaded with both active and passive recreational options; the stunning statues and many other public art tributes along the Oakland landscape, and the fascinating figures instrumental to Oakland's status as a civic center.
