Contemporary Comedic Genius: Jon Stewart

**Study Leader:** Martin Marshall

- 6 Classes: Jan. 7 – Feb. 11  
- Class ID: 3136
- Tuesday, 11:15 AM - 12:45 PM
- Wean Hall, 4708

Warning! This class contains political satire! It is not advised for people who are perfectly happy with the status quo. For some it may induce indignation, pangs of conscious, reassessment, or even accidental enlightenment. For everyone else, it will be a marvelous jaunt through Jon Stewart’s 17 years piloting *The Daily Show* on Comedy Central. Stephen Colbert, John Oliver, and many, many others will also raise their satirical heads. The show that does fake news and proudly admits it!

**Martin Marshall** became fascinated with comedy as a kid in the 1950s, going to Saturday matinees to absorb the works of Laurel and Hardy, the Marx Brothers, Buster Keaton, Harold Lloyd and Charlie Chaplin as well as pre-code Warner Brothers cartoons from Betty Boop to Daffy Duck. He grew up on Ernie Kovacs, Steve Allen, the *Honeymooners*, Red Skelton, and Lucille Ball, and then transitioned to Lenny Bruce, the Firesign Theatre, the Smothers Brothers, and Jonathan Winters as a teenager. He climbed onto the stage of the L.A. Committee to learn improvisational theater, and then founded People Theater in L.A. in 1970. In the 1970s, he returned to San Francisco to become a founding member of Improvisation, Inc., in downtown SF. He has written, produced, and directed comedic films in Silicon Valley, and been a slam poet and founding cast member and later director of Geezer Theater, an offshoot for seniors in the style of the San Francisco Mime Troupe. He has taught the Contemporary Comedic Genius series for the past five years at various locations in the SF Bay Area, including CSU Eastbay, Sonoma State, Dominican, Santa Clara, and SFSU OLLI programs, as well as at CMU.

Filmmakers From South Asia: India, Pakistan, Afghanistan, And Sri Lanka

**Study Leader:** Kalpana Biswas

- 6 Classes: Jan. 7 – Feb. 11  
- Class ID: 3208
- Tuesday, 1:00 PM - 3:00 PM
- Wean Hall, 4708

Films expose viewers in a viscerally powerful way to the social, political, and moral fabric of society. South Asia, the world’s most densely populated region, includes the largest Hindu-and Muslim-and Buddhist-majority countries linked by a colonial past. Four countries — India, Pakistan, Afghanistan and Sri Lanka — have been locked in bitter ethno-religious and cross-border conflicts for decades. The region also contains the world’s largest film industries, including Bollywood, which play a pivotal role in shaping the perceptions, values, and cultures of nearly 2 billion South Asians. The class will watch South Asian films and explore the historical, socio-political, religious, and cultural issues depicted. The nexus between politics and filmmakers, the changing profile of heroes and villains in tune with the political climate, and the broader role of censorship will also be discussed. The study group is highly interactive, and lively class participation is strongly encouraged.

**Kalpana Biswas** is a documentary filmmaker and producer/host of a TV program *Indie Film Forum*. Her filmography includes the crime thriller *A New York Heartbeat*, the documentary film *The Shot Felt ‘Round the World* about Jonas Salk, and a documentary short, *Jewels of Kandahar: The Women Speak* about war-ravaged Afghan women on their journey to empowerment. Her deep interest in war and the human condition were fostered by childhood stories of colonial India’s fight for independence and its savage partition along religious lines that engulfed and shaped her extended family. Her interests led her to spend several weeks in war-torn Afghanistan to work on a feature documentary, *Between Earth and Sky* (currently in post-production) about the trauma and resilience of Afghan widows and children born and raised in violent war. Her footage from Afghanistan has been incorporated in TV programs including CBS News *Sunday Morning: The World of Art Converges in Santa Fe*. Kalpana was previously Artist in Residence with AlphaLab Gear, an incubator for entrepreneurial ventures; Board Chairperson of Women in Film & Media, Pittsburgh; and President of American Marketing Association, Pittsburgh.

Homer’s Worlds: An Introduction To The Iliad

Study Leader: Karen Bowden Cooper

• 5 Classes: Jan. 9 – Feb. 6  Class ID: 3222
• Thursday, 1:00 PM - 2:30 PM
• Wean Hall, 4708

The Iliad was a foundational text in the life of ancient Greece. It was performed in relay at religious festivals, served as a resource in Greek education, and inspired dramatists, artists, and philosophers. Its characters and themes are echoed in modern literature and popular culture. The power of the poem derives, in part, from a combination of detail and scope which delighted ancient audiences, which can be daunting for modern readers. The course will provide an introduction to the world of the poem and its human and divine inhabitants. We will begin by looking at the diverse ways the poet grounds the action in the topography, geography, and particularities of life in the Aegean and Mediterranean world of the Bronze and Iron Ages. Each successive class will draw on excerpts from The Iliad to explore the personal and family histories of its protagonists and their quarrelsome gods.

Karen Bowden Cooper served for 16 years as Curator of the Kelso Museum of Near Eastern Archaeology and lecturer in Hebrew and Greek at Pittsburgh Theological Seminary. She has an M.A. with an emphasis in Biblical Studies from PTS and a PhD in Comparative Literature from UC Berkeley. Her research interests focus on the interplay of orality and literacy in literatures of the ancient Near East and Mediterranean, with emphasis on Homer and the Hebrew Bible.

Still Funny? Fantasia

Study Leader: Gloriana St. Clair

• 6 Classes: Jan. 16 – Mar. 26  Class ID: 3199
• Thursday, 1:00 PM - 2:30 PM
• Wean Hall, 4707

Students reading or rereading works often find that their sensibilities have changed. This class’s foragers will consider consistency of sense of humor. The Wilde class weighed and selected these titles for study: Lawrence Sterne’s Tristram Shandy, Evelyn Waugh’s Vile Bodies, Joseph Heller’s Catch 22, Douglas Adam’s Hitchhiker’s Guide to the Galaxy, Paul Beatty’s The Sellout, and Jennifer Egan’s A Visit from the Goon Squad. While students are expected to read works in advance for an interactive discussion, laughing together will be more important than dissecting. Class meets every two weeks to allow for reading.

Gloriana St. Clair served as the Dean of University Libraries at Carnegie Mellon University from 1998 to 2014, when she became the Inaugural Dean Emerita. During many of those years, she also served as the University liaison with The Academy for Lifelong Learning and subsequently Osher Lifelong Learning at Carnegie Mellon University. She holds a B.A. and Ph.D. in literature from the University of Oklahoma; a master’s degree in library science from the University of California, Berkeley; and an M.B.A. from the University of Texas. She enjoys teaching, reading, writing, arithmetic, big computer projects (Million Book project, Olive project), playing bridge, swimming, listening, and much, much more.
The Genius 
Of Henry James, Encore

Study Leader: Carol Zisowitz

• 6 Classes: Jan. 7 – Feb. 11  
  • Tuesday, 9:30 AM - 11:00 AM  
  • Wean Hall, 4707

Henry James, known as “the Master” in his day, is considered by many to be the greatest English (sometime American) novelist. We will read The Golden Bowl, the last of his great books and the most psychologically subtle. A difficult novel, perhaps requiring a teacher’s guidance, it is well worth the effort. The class will be divided between discussion of the novel and lectures on James, his biography, technique, and historical background. Guidance questions will be distributed for each section of the book we will read.

Carol Zisowitz has a Ph.D. in intellectual history from Harvard. She has worked as a history professor and a psychiatrist. She is notorious for stating at a psychoanalytic meeting that she learned more about psychiatry from reading James than from reading texts on psychiatry. James is her favorite novelist. She previously taught a class on another James novel, which was so successful that it led to her biography in the Osher newsletter.

Pleasures Of Poetry

Study Leader: Judith Robinson

• 2 Classes: Feb. 17 and Feb. 24  
  • Monday, 1:00 PM - 3:00 PM  
  • Wean Hall, 4708

This will be a shorter version of the course I have taught at Osher CMU for the last 20 years. I will begin by emailing students examples of fine poetry. During the first class, we will read and discuss these and other poems as well as writing techniques. Prompts will be offered for those who wish to write. The second day will be a workshop to offer feedback and editing suggestions to the students who have written poems. Students who do not wish to write but do wish to hear great work and participate in the workshop are also encouraged to come. As always, writing is an option, listening is a pleasure.

Judith R. Robinson is an editor, teacher, fiction writer, poet and visual artist. A 1980 summa cum laude graduate of the University of Pittsburgh, she is listed in the Directory of American Poets and Writers. She has published 75+ poems, five poetry collections, one fiction collection; one novel; edited or co-edited eleven poetry collections. She has taught at Osher at Carnegie Mellon University and the University of Pittsburgh. Her newest collection, Carousel, was published in January 2017, by Lummox Press. Her newest gallery exhibit, “The Numbers Keep Changing,” was on display at The Pittsburgh Holocaust Center, April through June 2019.
Short Stories: Diversity In The Microcosm

Study Leader: Helen-Faye Rosenblum

Materials Fee: $5*

- 6 Classes: Jan. 6 – Feb. 17*
- Monday, 1:00 PM - 3:00 PM
- Wean Hall, 4707

*Note: Class will not meet on Jan. 20

• 6 Classes: Jan. 6 – Feb. 17*
• Monday, 3:15 PM - 5:15 PM
• Wean Hall, 4707

*Note: Class will not meet on Jan. 20

Practitioners and students of the art and craft of short fiction often ask themselves (and each other) where stories begin and end. How do we draw the line between truth and fact, fiction and memoir, fantasy and memory? In this course, participants will use a variety of contemporary short stories to address the questions. The answers may be elusive, but the quest will be gripping. We will use fresh stories every term, so that the course description is the same, but the content is always fresh.

Please note: $5.00 fee is to cover the cost of printing of handouts.

Helen-Faye Rosenblum, a Phi Beta Kappa graduate of Chatham College, also received undergraduate and graduate education at Barnard College and the University of Pittsburgh. She is the author of two novels published by Putnam with further work in progress. Her first novel, Minerva’s Turn, won the Ohioana State Library Award for fiction. She has reviewed books and the arts for the Cleveland Plain Dealer, the Pittsburgh Press and numerous smaller publications and radio stations. She has taught and lectured in many venues, from universities and public schools to the U.S. Correctional System in Ohio. She is a past president of A.L.L. (Osher).

Great And Notable Novels Read And Revisited

Study Leader: Mary Schinhofen, Ken Josephs, Gloriana St. Clair, Helen-Faye Rosenblum

• 6 Classes: Jan. 9 – Mar. 19
• Thursday, 1:00 PM - 3:00 PM
• Wean Hall, 4707

Class ID: 3120

With an emphasis upon earlier works and canonical selections, the Great Novels study group will read and discuss significant novels of the 18th, 19th, 20th, and occasionally the 21st centuries. From the vantage point of age and experience, what insights can we share now that were not available during a previous reading? This course provides opportunities to read novels that we may have “saved for later” or ones that we never knew existed. Class members are encouraged to lead a book discussion session. The class meets on alternate weeks.

Please note: Meets every other week on 1/9 & 23, 2/6 & 20, 3/5 & 19.

Mary Schinhofen earned a B.A. degree in literature and philosophy and went on to raise a family and teach English literature at the University School in Shadyside. She has since retired in order to devote more time to reading, writing, and watercolor painting. An Osher member, she is deeply and passionately committed to the continuing education of everyone, especially those who have purportedly reached the age of wisdom. Teaching this class fulfills a lifelong dream of hers.

Ken Joseph has been an Osher member since 2016.

A Story Of Public Libraries

Study Leader: Marcia Taylor

• 4 Classes: Mar. 4 – Mar. 25  
  • Wednesday, 11:15 AM - 12:45 PM
  • Wean Hall, 4707

Public libraries in Allegheny County have collaborated for more than 20 years to provide services to local residents. Did you know that there are 46 independent library organizations with more than 73 service outlets plus bookmobile stops in the county? How are libraries organized? How does a book that you order on the website get to your local library? What's happening with e-books and public libraries? Did you know that some libraries are now lending wifi hotspots, cake pans, bicycle tools, wood chippers, and more? What programs, classes, and events do libraries offer of interest to older adults? Through panel discussions, presentations by local librarians, and participant discussion, this course will provide you new insights into the amazing myriad of services provided by the region's public libraries.

Marcia Taylor is retired from the staff of Mt. Lebanon, Pennsylvania where she served as Assistant Manager and Director of Finance. She also served for ten years as a member of the Governmental Accounting Standards Board. She has a Master in Public Management degree from CMU and a Bachelor of Science degree in Accounting from Bucknell University. Marcia has been very involved in Allegheny County public libraries, serving for six years as the founding President of the Allegheny County Library Association (ACLA), on the board of the Electronic Information Network (EIN) for six years, numerous blue ribbon and study panels, and on the board of the Mt. Lebanon Library. Marcia will be assisted in this course by experts from ACLA, EIN, and libraries.

The World Of Agatha Christie

Study Leader: Mark Banister

• 4 Classes: Mar. 2 – Mar. 23  
  • Monday, 1:00 PM - 2:30 PM
  • Wean Hall, 4707

Author Agatha Christie is the best-selling novelist in the world, with over two billion copies of her books sold. (She is outsold only by Shakespeare!) In addition to having 66+ novels and 150+ short stories published, she is the author of more than a dozen plays, including the longest running play in the world, The Mousetrap. We will discuss her books, the movie and TV adaptations, her theater work, along with her fascinating life, (including her mysterious disappearance, and her marriage to a famous archaeologist), and their effects on her writing. Suitable for both newcomers to her work and long-time fans.

Mark Banister retired from the Environmental Health and Safety Office at Carnegie Mellon in 2017. He has been a ravenous reader of Golden Age Mystery Fiction for decades and has an embarrassing number of mystery books, TV shows and movies related to them.

Golden Age Mysteries

Study Leader: Mark Banister

• 4 Classes: Mar. 5 – Mar. 26  
  • Thursday, 11:15 AM - 12:45 PM
  • Wean Hall, 4708

The Golden Age of Mystery Fiction is typically defined as the era of detective stories which follow the established conventions of fair play, clear plotting and clue presentation, and frequent surprising endings. Though this is usually thought to include stories written between World War I and World War II, we will look at influences prior to that time and also works of the genre after it. Since many of the authors have had their works dramatized for TV or movies, we will look at those as well. Not much will be made of the grand dame of the Golden Age, Agatha Christie, as she has an Osher class of her own!

Library Of America:
Champion Of Our Great Writers

Study Leader: Gene O’Sullivan

- 1 Class: Feb. 17
- Monday, 9:30 AM - 11:30 AM
- Wean Hall, 4708

The Library of America is a nonprofit publisher dedicated to keeping our greatest and most-significant American literary voices in print. It was Edmund Wilson’s big idea inspired by the Bibliothèque de la Pléiade series of French classics. The LOA is a collection of books, not a place. Its first four titles were collections of Herman Melville, Nathaniel Hawthorne, Walt Whitman, and Harriet Beecher Stowe. The collection includes works of history and literature by our great authors, as well as exceptional anthologies. This course will cover the hard-fought campaign leading to the founding of the LOA in 1982, the authors and literary works honored so far by inclusion, and the careful editorial approach applied to each edition, of which there are over 300 today, and growing.

Gene O’Sullivan has been a collector of the Library of America since he received a gift of the inaugural Herman Melville edition, drawn in by the idea that American literature deserved the same honor and reverence as European literature. Retired since 2014, he was chief financial officer of the Elliott Group, a global manufacturer of compressors and turbines. Since retiring, he has enjoyed taking many Osher courses, always delighted by their content and quality. He looks forward to sharing his high esteem for the Library of America with other Osher members.

Such Friends: Max Perkins
And Ernest Hemingway

Study Leader: Kathleen Donnelly

- 1 Class: Feb. 20
- Thursday, 11:15 AM - 12:45 PM
- Wean Hall, 4708

In the mid-1920s, F. Scott Fitzgerald told his Scribner's editor Maxwell Perkins about the hot writer everyone was talking about in Paris—Ernest Hemingway. We will look at how their relationship developed and contributed to Hemingway's major novels. What role did Perkins play in Hemingway's success? How did he influence his work? How did Perkins juggle his growing stable of American fiction writers? No prior knowledge of their novels is necessary, but this could be a good excuse to read or re-read The Sun Also Rises or A Moveable Feast.

Universal Basic Income: What’s It All About?

Study Leader: Donald Carter

- 1 Class: Feb. 18
- Tuesday, 1:00 PM - 2:30 PM
- Wean Hall, 4708

Universal Basic Income (UBI) is a proposed federal program to provide all citizens with a fixed unconditional amount of money, say $1,000 per month, regardless of income, financial resources, or employment status. Thus the unemployed single mother, the retired bus driver, the employed computer programmer, and billionaire Warren Buffet would all receive the same amount. UBI will be a major issue in the upcoming 2020 national election. Why has it emerged, and what’s it all about?

Don Carter is Director of the Remaking Cities Institute, Carnegie Mellon University. He also teaches in the Master of Urban Design program in the School of Architecture. Prior to joining CMU in July 2009, Don was President of Urban Design Associates in Pittsburgh where for 36 years he led many of the firm’s most complex projects, drawing upon his international experience as an architect, urban designer, and developer. LAW

From Arrest To Trial

Study Leader: Errol Miller

- 6 Classes: Mar. 5 – Apr. 9
- Thursday, 9:30 AM - 11:00 AM
- Wean Hall, 4708

This course deals with the criminal justice system from arrest to trial. Emphasizing the general motives of the criminal law, deterrence, isolation, rehabilitation, and retribution, we'll discuss to what extent these motives are present in making certain acts illegal and in criminal procedures. Topics will include: acts leading to arrest and consequences following arrests; the “war on drugs,” and “wars” against vices like gambling, alcohol, pornography and prostitution; pre-trial detention of the accused by denying bail and the detention of witnesses or other steps to secure their cooperation. Classes are enhanced by articles from the media, emailed prior to each session. Much new material is used to reflect changes since the last time the course was taught. Sometimes, a guest speaker such as defense attorney, prosecutor, police officer or ex-offender is invited. This course can be taken independently of Questioning the Criminal Justice System from Trial through Appeal.

Errol Miller graduated from Dartmouth College and Harvard Law School, has practiced law for 50+ years, and been an Osher Study Leader since 2004, offering six different classes. “Trust & Estates” draws on his 30+-year experience in planning and administering estates and as a frequent lecturer in Elder Law Continuing Legal Education seminars. “From Arrest to Trial” and “From Trial through Appeal” reflect a lifelong interest in the criminal justice system, experience clerking for a PA Supreme Court Justice, post-conviction appeals, avid study of current criminal justice events, participation in local reform groups (B-Pep, the Alliance for Police Accountability, ACLU, Cease-FirePA), and views on how coordinating criminal justice and mental health principles can help produce criminal justice reform. “Those Who Trespass Against Us” addresses torts cases (Civil Wrongs) with practical advice for non-lawyers on the principles behind most civil cases. “The Current Supreme Court” reviews major decisions of the Roberts Supreme Court and what we might expect as court membership changes. “Introduction to Real Estate Law” explains the legal principles surrounding real estate transactions. In each course, Errol displays his sense of humor used as the principal writer of 23 annual Allegheny County Bar Association topical satirical reviews.
Steelworker Litigation

Study Leader: Carl Frankel

- 5 Classes: Mar. 6 – Apr. 3
- Class ID: 3193
- Friday, 1:00 PM - 2:30 PM
- Wean Hall, 4707

Through the lens of actual steelworker cases, this course examines issues of general interest which have the following in common: they imply sharply conflicting values on which ordinary citizens as well as judges will differ; the applicable law or constitutional text is not complex, and there is no obvious "correct" result. The cases range across areas from treaty adoption; civil rights, including voluntary, negotiated minority job quotas; union governance, such as a bar against outsider contributions to elections for international office; and, more recently, the status of Northwestern University football scholarship players as "employees" under the labor law and whether the NLRB should assert jurisdiction over that issue; and whether Duquesne University is exempt on religious grounds from the provisions of the same law so as to preclude its adjunct professors from organizing and engaging in collective bargaining. In some instances, the course will include some of the behind-the-scenes, long-term strategy underlying these cases.

Carl B. Frankel was a lawyer for the United Steelworkers of America from 1968 until 2000, when he retired. He served as associate general counsel-litigation 1971-1996 and general counsel 1996-2000, playing a role in all the above cases but one. In addition, he has argued cases before nearly all the United States Courts of Appeal as well as the Supreme Court. Early in his career, he was a supervising or trial attorney in the Chicago and Milwaukee offices of the NLRB. Frankel is a graduate of the College (B.A. 1954) and the Law School (J.D. 1957) of the University of Chicago. He is among the first members elected by the founders to the College of Labor and Employment Lawyers.

Emerging Legal Issues

- 6 Classes: Jan. 8 – Feb. 12
- Class ID: 3020
- Wednesday, 2:45 PM - 4:45 PM
- Wean Hall, 4708

Choosing weekly topics reported in the national newspapers, each week the instructor will explore how the law struggles to keep pace with advances in science, technology, and social movements; in short, how the law reacts to our changing society and how our society responds to a changing legal landscape. Topics can include anything from recent SCOTUS opinions to private and governmental legal actions.

David J. DeFazio graduated from La Roche College and Duquesne Law School, and works as a private attorney whose practice focuses on litigation and which has spanned the legal spectrum from death penalty cases to routine family law trials. DeFazio has been an adjunct instructor at the University of Pittsburgh's Graduate School of Public and International Affairs Legal Studies Program since 1987.

Students will be introduced to a brief history of the pastel medium, ingredients used in manufacturing pastels, pastel forms, and the variety of pastel surfaces. Students will explore mark making, color mixing and layering, and pastel painting techniques through Study Leader demonstrations and hands-on practice. Students will develop self-confidence and utilize new skills through experimentation with various pastel materials and surfaces.

CRAFTS/HOBBIES

Fly Fishing For Beginners
Study Leader: Michael Ginsburg, Steve Abler

- 4 Classes: Mar. 4 – Mar. 25
- Wednesday, 2:45 PM - 4:45 PM
- Wean Hall, 4707

There’s a thrill when catching a fish—a trout on a fly. This course is about that thrill. You will learn the basics of equipment, casting, fly selection, knots, and reading the water. The object is, to catch a trout. Fly fishing was described by Dame Julia Berner in the 15th century. In North America, we have a rich habitat and diverse insect life that support healthy trout populations. There are other appealing aspects of trout fishing: equipment selection, stalking a fish, choosing the right fly, making the cast, playing the fish . . . and then releasing it to reproduce and fight another day. And, it all takes place amid exquisite scenery because trout have the good sense to live in some of the most beautiful places on Earth. The sport has adapted to lakes, farm ponds, and the ocean. You can also learn the related arts of lying and embellishment.

Michael J. Ginsburg, MD, is a retired emergency physician. He attended the University of Pittsburgh as an undergraduate, and completed medical school at the University of Chicago. He is married and has two children and two grandchildren. A self-confessed fly-fishing addict for 60 years, he is an amateur entomologist and fly tier who enjoys spending time with his family, programming computers, and mooning over his grandkids. From his first experience with a rod and reel at age 5, Dr. Ginsburg knew fishing would be his lifelong avocation, and the ensuing 69 years have proven him correct. The sport brings him continual joy when he is on the stream, or just daydreaming.

Steve Alber spent 40 years as a writer in the advertising and marketing business, trying to convince clients to do what they should do if he had not had to convince them. He then retired to pursue his lifelong passions: fishing and sitting around talking about fishing. Though he first fished when he was four, he came to fly fishing in his mid-40s, and has spent the past 30 years trying to improve his technique; his success in this area is subject to debate.

This class is for absolute beginners, and we’ll all be crocheting the same project — a winter hat that Jonah calls a "pickler" hat. Pompom optional. Study leader will have a supply of inexpensive yarn and crochet hooks from the Creative Reuse or discount stores (for a small fee), but you are free to bring your own hook and yarn if you’d like. The study leader will contact the participants prior to the start of class to see who has materials.

Barbara Gengler is a serial hobbyist who has played with fiber, glass, silver, and wood to create quilts, windows, vases, jewelry, musical instruments, and other functional art. As in her work developing software solutions, she enjoyed the challenge of creating functional solutions using resources and materials at hand. • Monday, 10:00 AM - 11:30 AM
• Wilkins Community Center,

Tai Chi Ch’uan is an ancient Chinese martial art, an exercise to raise and balance the energies in the body, and a moving meditation. Tai Chi is usually first approached as a gentle exercise to increase flexibility, promote better balance, and generally enhance physical, mental, and spiritual well-being. While there are many forms and styles of Tai Chi, the Yang style is one of the most popular. The “long” forms of Tai Chi generally consist of 50 or more postures divided into three sections. This seven-week session, while reviewing Section One, will focus on the first half of Section Two. These are the postures and movements that are being repeated, often frequently, in the form. Many first appear in Section One, and this entire set is repeated, in sequence, in Section Three.

Please note: For physical activity courses we encourage everyone to consult with a physician who can help assess fitness for participation. Please be aware that we do not have trained medical personnel on the premises during any courses with physical activity.

Judith Crow is a graduate of Mt. Holyoke College with a degree in philosophy. She began her studies of Tai Chi Ch’uan under Yung Ko Chou in Pittsburgh in 1974. In 1980 she was chosen as one of five to receive training as a teacher in both the exercise and the martial arts aspects of Tai Chi. For over 30 years she has taught courses through the Community College of Allegheny County evening noncredit program, conducted classes and workshops throughout the eastern United States, and taught in a variety of senior centers and lifelong learning programs.

Bridge: Play Of The Hand

Study Leader: John Olmsted

- 6 Classes: Jan. 9 – Feb. 13
- Thursday, 9:30 AM - 11:00 AM
- Wean Hall, 4707

There is a near-infinite variety of bridge hands, and playing your hand so as to maximize your team’s tricks is as much art as science. Play of the Hand provides instruction and practice in both declarer and defender play. We will cover declarer techniques including planning the sequence of play, managing entries, establishing long suits, when and how to finesse, managing the trump suit, end plays, and squeezes. We will also look at defensive strategies including opening leads, signalling partner, and deceiving the declarer. The level of coverage will depend in part on the needs of the students, but a basic knowledge of bidding and play will be assumed.

John Olmsted has enjoyed playing bridge since he learned the game from his parents at age 10. He was a member of the Carnegie Tech Intercollegiate champion bridge team as an undergraduate, and he and his favorite partner finished fifth in the American Contract Bridge League national open pairs competition in Pittsburgh in 1958. Although he has played duplicate bridge on and off over the years, he prefers the relaxed social atmosphere of a friendly “party” bridge game. He has taught several levels of Bridge courses for Osher at CMU and coordinates the Osher Bridge Special Interest Groups.

Improve Your Party Bridge Skills

Study Leader: John Olmsted

- 6 Classes: Mar. 3 – Apr. 7 Class ID: 3140
- Tuesday, 3:15 PM - 4:45 PM
- Wean Hall, 4707

This course is for contract bridge players who enjoy a good quality social game but do not necessarily wish to pursue the competitiveness of duplicate bridge. It assumes a basic knowledge of the game and will build on that. We will cover modern bidding conventions, competitive bidding, planning play of the hand, and defenders’ play. The course content will be partly determined by the desires of the students. The format will be highly interactive, including challenge deals to study prior to each class, in-class example deals, and play and analysis of two deals each week. Repeating students are welcome.

Intro To Cryptic (British) Crossword Puzzles

Study Leader: Cherie Maharam

• 3 Classes: Mar. 6 – Mar. 20  
  • Friday, 9:30 AM - 11:00 AM  
  • Wean Hall, 4707

Cryptic crossword puzzles, also called British crosswords, aren’t your grandma’s crossword puzzles. And they’re not your crossword puzzles either! Cryptic crossword clues are initially baffling, and don’t make sense when you first look at them. For example, the clue “Aunt Dolly’s awful children not welcome” is not about screaming brats. And the solution to the clue “Great Gatsby: one of drama’s primary characters” has nothing to do with literature. In fact, the instructions for solving are hiding in the clue. The solution might be an anagram, a hidden word, a homophone, or some other word play. This class will show you how to find those instructions and reach the solutions. Spoiler alert: The answer to the first clue example is Adults Only, and the second is Good. Would you like to know how we got there? If so, this class is for you.

Cherie Maharam has always enjoyed word puzzles and word games. She learned to solve cryptic crosswords after wondering for years what those puzzles in the back of New York Magazine were all about. Over the years, she became more involved in solving the puzzles both in print and online, and in the last few years, thanks to a Facebook cryptic group, has begun learning how to construct the clues themselves. She tries to sneak in at least a bit, or more than a bit, of solving every day. She finds these puzzles to be an unending source of wit, surprise, and brain stretching.

The Curriculum Committee is always looking for new study leaders to teach interesting courses for us. If you, or someone you know, is interested, go to the “Teach For Us” page on our website to submit a proposal.
Let’s Play Duplicate Bridge!
Study Leader: Marcia Taylor

• 3 Classes: Apr. 1 – Apr. 15  Class ID: 3210
• Wednesday, 11:15 AM - 12:45 PM
• Wean Hall, 4707

Take your bridge game to the next level by learning how to play bridge competitively. Learn the ins and outs of duplicate bridge. Course coverage will include convention cards, table play, scoring, etiquette, master points, local game choices and tournaments, and resources from the American Contract Bridge League (ACBL) and others. This course will not enhance your bridge game (it won’t discuss bidding or defense) but will expand your game potential beyond social (“party”) bridge games. In the final week the class will play a short duplicate session. A good working knowledge of the game and a desire to play duplicate games is necessary.

Marcia Taylor is retired from the staff of Mt. Lebanon, Township where she served as Assistant Manager and Director of Finance. She also served for 10 years as a member of the Governmental Accounting Standards Board. She has a Master in Public Management degree from CMU and a Bachelor of Science degree in Accounting from Bucknell University. While working Marcia found she had to give up her passion for playing duplicate bridge; it just did not fit with her work schedule. Once retired, she decided to re-ignite that passion, and thanks to John Olmsted and Osher, was able to refresh her game and catch up on changes over the 35+ years she had not played. Now Marcia generally plays duplicate 3-4 times per week and has played in tournaments at all levels.

As we age, we often notice that simple activities—walking, tying shoelaces, cooking—become more difficult. ‘It's just aging’, we say. However, what if we can change that? In this class, we will use the Alexander Technique to notice what we do and make changes to habits that no longer serve us. We will explore Alexander's process through simple movements, activities that interest class participants and hands-on direction from the teacher. Students of the Alexander Technique often report moving more easily and gracefully. This class is experiential. Please dress comfortably. No previous experience necessary.

Janet Seltman is a Registered Somatic Movement Therapist. She is trained as an Alexander Technique teacher, a Unity in Motion teacher, and a flower essence practitioner. She has been in private practice in Pittsburgh for over 30 years.

**Closure: Writing The Last Chapter**

*Study Leader: Judith Black, Nicole Greer*

- 5 Classes: Mar. 17 – Apr. 14  
- Tuesday, 1:00 PM - 3:00 PM  
- Wean Hall, 4707

No one wants to die. But the truth is everyone's life will someday come to an end. The final chapter of your story can be about meaning and dignity, instead of chaos and confusion. Closure will empower you with easy-to-access and simple-to-understand information and resources to make educated decisions about your end-of-life plans. We discuss narratives of other people’s “last chapters” and trends in how people die, and also explore the “next-to-last chapter” of how people live late in life. Together we will destigmatize and demystify the process of talking about death and dying. The hope is that each participant can begin to see how to live the last portion of his or her life according to the values that have guided the rest of that life. Previous participants have said that this course has directly helped them grapple with situations where they would have otherwise felt lost and overwhelmed.

Judith Black is a physician who continues to practice as a geriatrician. From 1998 to 2015, she was the medical director for senior markets at Highmark, Inc., where she provided the medical expertise and leadership that helped Highmark enhance and coordinate the care of older adults. She presently serves as a medical advisor for the Jewish Healthcare Foundation and a practicing geriatrician for the Allegheny Health Network. Dr. Black brings 40 years of medical experience to her position and also holds a master's degree in health administration. She serves as a faculty member of the Consortium Ethics Program and is a clinical associate professor of medicine at the University of Pittsburgh, School of Medicine.

Nicole Greer is a nurse quality improvement specialist for the Jewish Healthcare Foundation (JHF), working on several initiatives to improve the quality of care provided to older adults, including the RAVEN initiative, Senior Connections, and the Death and Dying Fellowship at JHF.

You may be suffering from decidophobia or neophobia. If so, it is time to acknowledge them and move forward. Stop stagnating and being afraid of the consequences from decisions when you should be moving on in life. In this interactive course, you will learn how to break your routines and begin trying new experiences. Through self-reflection, you will understand why you fear embracing change and why life adjustments can be difficult. You will also learn how to analyze the likely effects of your decisions. - 1 Class: Feb. 26  
  Class ID: 3127
- Wednesday, 11:15 AM - 12:45 PM
- Friends Meeting House, Ballroom, 4836 Ellsworth Ave., Oakland

- 1 Class: Apr. 15  
  Class ID: 3128
- Wednesday, 11:15 AM - 12:45 PM
- Friends Meeting House, Ballroom, 4836 Ellsworth Ave., Oakland

Your voice is your first line of defense against being mugged. Muggers will often “interview” their victims beforehand by saying or doing something intimidating. Knowing what to say is not as powerful as knowing how to say it. If you are soft spoken and polite, the mugger is more likely to believe that you would make an easy target. We all have within us an inner fierceness that can knock a mugger off his stride. The purpose of this course is to provide a safe place for practicing how to say “No!” in a way that maximizes our chances for driving away the mugger.

Jackie Umans has attended multiple self-defense classes from the internationally renowned Model Mugging school of self-defense. In 1991 Jackie graduated from the Basics class, then continued taking advanced classes, including classes based on scenarios for self-defense including situations where the mugger has a knife or a gun. Over the past 25 years Jackie has repelled potential muggers on two separate occasions solely by using vocal techniques.

Wellness

The Power Of Exercise For Older Adults

Study Leader: Bill Presutti, Jr.

- 3 Classes: Jan. 27 – Feb. 10
- Monday, 11:15 AM - 12:45 PM
- Wean Hall, 4708

Considerable evidence shows the benefits of various modes or combinations of physical activity in the older population. So says the American Council on Exercise (ACE). This course will explain the underlying benefits of exercise as well as the risks of living a sedentary lifestyle. It will break down the physical and psychological benefits of exercise, the barriers to making exercise an integral part of a healthy lifestyle, and advise how to adhere to an exercise regimen as part of healthy living. Specific attention will be paid to a multi-component exercise regimen that promotes aerobic fitness, strength, and balance.

Bill Presutti, Jr., retired from the faculty of Duquesne University after serving almost 30 years in the School of Business including 14 years as Associate Dean of the graduate business program. He earned his B. S. degree from Duquesne, an M.A. in Economics from Northeastern University and a Ph.D. in Applied History from Carnegie-Mellon. After a tour of duty as a Logistics Officer in the U.S. Air Force, he worked as a business professional in industry for a number of years before joining the Duquesne faculty. He was awarded the Certified Personal Trainer designation from the American Council on Exercise (ACE) at age 67. He has also earned a certificate in “Exercise for Older Adults” from ACE and a specialty certificate as a “Senior Strength and Conditioning Specialist” from Exercise ETC. Inc.

• 6 Classes: Mar. 4 – Apr. 8
• Wednesday, 9:00 AM - 11:00 AM
• Wean Hall, 4707

Would you like to connect to fellow classmates through your writing? This workshop will get your creative juices flowing. We will begin each session with an in-class writing exercise. In addition, you will be asked to submit a writing assignment in the form of essay, poetry, memoir, fiction, or creative nonfiction each week, which will be discussed the following week. You will discover what your classmates appreciated about your piece, what they didn’t understand, and how you might improve your writing. We support and encourage each other in the process of putting words on paper.

The Mystery Novel: You Can Write One

Study Leader: James Tucker

• 5 Classes: Jan. 8 – Feb. 5
• Wednesday, 2:45 PM - 4:15 PM
• Wean Hall, 4707

At first, it seems a daunting task to finish a 400-page story. That’s why so few start one. However, if each chapter is approached as a short story of its own with nothing else to think about anyone can do it. This will be a small class, hands-on workshop. We will begin our time together discussing how I went through the steps of outlining, writing and getting my story published. Then we’ll discuss ideas for a mystery novel we each will begin. What elements are important? How do we draw the reader into our story? After that, we put pen to paper. Each week there will be a 2-page writing assignment. I want to motivate you to love the process. We will each write an outline for our story. Then an opening paragraph. And finally, we’ll tackle the first chapter. Maybe two. After that, the rest will be easy.

Jim Tucker grew up in Philadelphia, then studied engineering at Tufts University. He attended medical school at Columbia University and came to Children’s Hospital of Pittsburgh for his residency. He has been practicing pediatrics in Pittsburgh since 1981. Ever since medical school Jim had a story rattling around in his head: What if, on the first day of gross anatomy, one of the cadavers was someone who had been murdered and stashed away in the lab? He wrote it as a screenplay. He even had his friend George Romero read it and give suggestions. But it went nowhere. Months later a friend saw the screenplay at George’s house, read it, and convinced Jim to turn it into a novel. And so, the journey began. Jim wrote and re-wrote for a year. Abra Cadaver was published by Penguin-Putnam in 1999. Three more books followed: Hocus Corpus, Tragic Wand, and Silent Samaritan. He and his wife, Kim, raised three sons in Fox Chapel and now have five grandsons. Jim plays golf, blows glass, is an amateur magician, and is still chasing the ghost orchid of his life: an optioned screenplay.
Masters Of Modern Architecture

Study Leader: Jeffrey Swoger

• 6 Classes: Jan. 10 – Feb. 14  Class ID: 3185
• Friday, 11:15 AM - 12:45 PM
• Wean Hall, 4708

Many historians believe the era of modern architecture began in Chicago with the first "skyscraper." It progressed through a myriad of styles and philosophies until the present. Throughout this evolution, many architects have made major contributions to the art form, breaking existing orthodoxy and challenging the eye, the mind, and even the way we live. Others have built on the work of their predecessors, adding their own touches. But all have had profound influence on our cities and our civilization. The course will examine a number of architects from around the world, (some familiar and a few not so well-known), and their art. We will trace important trends in architecture and celebrate the achievements and legacy of these master architects. Lively discussions will inevitably ensue.

Jeffrey Swoger began his college years studying architecture at Washington University in St. Louis, before transferring to the Institute of Design at Illinois Institute Technology to study graphic design. However, he remained keenly interested in architecture, keeping abreast of the major architects and their buildings throughout his life. Living in Chicago, he saw the rise of several iconic buildings: the John Hancock Building; the Sears Tower; the 860-880 Apartments. As a designer, he worked with many Chicago architects and real estate developers and created the logo for the first Chicago School of Architecture Foundation, which was housed in the historic Glessner House, designed by H. H. Richardson.

Survey Of Sustainable Architecture

Study Leader: Jenna Kappelt

• 1 Class: Feb. 18  Class ID: 3093
• Tuesday, 9:00 AM - 11:00 AM
• Wean Hall, 4707

In this course we will introduce students to concepts of sustainable design. The first half of the class will be lecture style, showcasing historical and recent examples of sustainable design concepts. The second half of the class time will be a tour of the Intelligent Workplace at CMU, on the top floor of Margaret Morrison Carnegie Hall.

Jenna Wizzard Kappelt has managed the outreach programs for the School of Architecture through the Center for Architecture Explorations since January 2019. She also oversees the Architecture Learning Network. Jenna works to create a cohesive experience of lifelong learning for people of all ages interested in the diverse practice and pursuit of architecture. After graduating from Carnegie Mellon, Jenna spent over eight years in the solar energy industry. She managed the engineering and design of photovoltaic systems at SolarCity (now Tesla), exploring new means of efficiency and sustainability in mechanical and structural systems as well as software solutions for advanced system design. Her studies in the intersection of solar and water systems drive her to prioritize concepts of sustainability and social equity within all levels of architecture education. She is devoted to the pursuit of architecture as a means of creating joy and excitement in our built environment, thereby building personal investment in an equitable and ecologically responsible building industry. Jenna holds both a Bachelor of Architecture and a Master of Science in Sustainable Design degrees from the Carnegie Mellon University School of Architecture.
Professional Ethics And Architecture With Case Studies

Study Leader: Omer Akin

- 5 Classes: Mar. 4 – Apr. 1  
- Wednesday, 3:15 PM - 4:45 PM  
- Wean Hall, 4708

Professional Ethics and Architecture with Case Studies is a course that is identified with the professional aspects of the student’s past experiences. The intent of the course is to educate students about ethics. This will sound at once truthful to the erudite reader and egregious to the reader who feels entitled. So, without any apologies for the course intent let us embark upon a journey together and assess where we end up. If anyone so much as implies that they bottled up ethics as an elixir that they can administer to you so many times a week and at the end you will be this ethical person, don’t buy it! First of all, you have all the ethics tools and knowledge in place. Second, what you need is to become knowledgeable about how humans judge ethical circumstances.

Omer Akin is a Professor at the School of Architecture, Carnegie Mellon University, is a frequently published researcher in the areas of design, cognition, and computation. His books include Representation and Architecture (1982), and Psychology of Architectural Design (1986, 1989). He has been teaching as tenure track and tenured faculty at CMU since 1978. He has served as the Head of the Department of Architecture at CMU during 1981-1988 and the director of the graduate programs during 1989-2000.

Thinking Outside Of The Zoning Box

Study Leader: Beatrice Spolidoro

- 1 Class: Feb. 18  
- Tuesday, 3:15 PM - 4:45 PM  
- Wean Hall, 4708

Attendees will learn to reinterpret zoning requirements by rethinking the “highest and best use” of the land available for construction. Successful US and European case studies will demonstrate how simple massing strategies can make buildings seemingly break free of property boundaries. Participants will explore the psychological impact of different designs, and the instinctive reactions architecture can trigger. Attendees will be able to “think out of the box”, without going over-budget.

Bea Spolidoro (AIA, LEED Green Associate, WELL AP) is an Italian Architect registered in Pennsylvania. Since 2012, she has been working with the Pittsburgh-based firm Rothschild Doyno Collaborative. She is an active member of the American Institute of Architects (AIA) at a local level, and she has served as a judge for the Institute Honor Awards of AIA National in 2016. Bea is passionate about building sustainable, healthy environments. Her Italian background motivates her to be a steward of good design and of preservation. As a result, her projects aim to improve both the built world and society.

In one hour we shall discuss the Quark Gluon Plasma. At early times, the Universe was too hot for atoms, atomic nuclei, and protons to exist. Protons are not elementary particles. They consist of elementary particles called quarks, which are bound to form protons by gluons, the quanta of the strong interaction. Quarks and gluons are elementary particles. Before about a millionth of a second after the time our Universe was formed, often called the Big Bang, the matter in the universe consisted of very dense matter called the Quark Gluon Plasma. In our one-hour session I will describe the Quark Gluon Plasma (QGP), how high energy particle experimentalists are trying to produce QGP by colliding heavy atomic nuclei together, and how particle experimentalists with the help of particle theory can determine if the QGP has been produced. No mathematical equations are used.

Leonard Kisslinger joined the faculty of Carnegie Mellon's Department of Physics in 1969, coming from Case Western Reserve University, where he attained the rank of full professor. The program of research in Dr. Kisslinger's laboratory was the study of the quark/gluon structure of hadrons and nuclei, but now is mainly engaged in particle astrophysics. Since 2000, he has directed the Carnegie Mellon/Colfax/Helen Faison Physics Concepts Program, which pairs undergraduates with inner-city middle-school students to learn science by hands-on experience. He is a fellow of the American Physical Society and served as associate editor of committees of the Space Radiation Effects Laboratory and the Los Alamos Meson Physics Facility. He was also a member of the Executive Committee, Division of Nuclear Physics, of the American Physical Society. He received his Ph.D. degree from Indiana University.

As our world becomes increasingly reliant on the production of energetic and electromagnetic frequency, unintended health consequences are being thrust upon many of us from these technological advancements. Participants in this class will become proficient at understanding how various forms of energy affect our physical well-being and thought processes daily. Each class will include a discussion on the health benefits and potentially harmful effects associated with exposure to sources of sound, light, and electromagnetic frequency (EMF), as well as non-measurable energy currents. In addition, we will discuss the use of correlative forms of energy for the diagnosis and/or treatment of disease in traditional and alternative forms of healthcare. By the end of this course, each participant will become empowered by gaining a comprehensive understanding of how we physiologically interact with our energetic world and by learning how to augment or mitigate environmental sources of energetic frequency.

Robert Brown has studied the health of more than 400,000 patients for 30 years. X-rays, CT scans, ultrasound studies, and MRI scans have shown him the assorted effects that disease and injury can have on human health. During this time, he has accumulated vast experience with how toxins effect our lives: from the initial presentation of disease through recovery, or in those much less fortunate, disability or death. The broad-minded perspective of Rob Brown, MD, comes not only from his experience as a physician, but also from his experiences as a passionate world traveler. From teaching medical imaging to doctors in Tanzania, observing first-hand traditional healings of an Iban medicine man in Malaysia, to discussing traditional medical treatments with Tibetan physicians, Dr. Brown has gained a global perspective of healthcare. Dr. Brown has worked as a radiologist in both private practice and at academic centers, including NYU Medical Center and the Cleveland Clinic Foundation. Dr. Brown has written several book chapters, many journal articles in peer-reviewed radiology publications, and participated in the training of radiology residents and medical students. Introducing people to their potential, ideal state of wellness is an important contribution Dr. Brown enjoys making.

Neanderthals: Fact, Fiction, And Fate

Study Leader: Adam Davis

• 2 Classes: Feb. 17 and Feb. 24  
Class ID: 3224
• Monday, 3:15 PM - 4:45 PM
• Wean Hall, 4708

Who were the Neanderthals, and what happened to them? This course will examine the biology, history, and ultimate fate of the Neanderthals, the closest cousins of modern humans. We will discuss the evolutionary origins of Neanderthals, their classification and relationships to Homo sapiens, how they differed from us biologically (and how they didn’t!), famous Neanderthal fossils and discoveries, and what we know about the culture, lifeways, and ultimately what became of these mysterious people who vanished from the earth some 30,000 years ago. It is my hope that studying Neanderthals, possibly the last other humans to occupy the earth alongside Homo sapiens, can teach us important lessons about the origins and destiny of our own kind.

Adam Davis is a paleoanthropologist, evolutionary biologist, and science historian, and is a former president of the Southern Association for the History of Medicine and Science (SAHMS). He is an associate professor of biology at Community College of Allegheny County, and teaches adjunct and noncredit courses on the history of science at Duquesne University and the University of Pittsburgh. Adam studied physical and forensic anthropology and archaeology at Mercyhurst University, and did his graduate work in paleoanthropology at the University of Pittsburgh. His career has included historic and prehistoric archaeology throughout Pennsylvania, paleoanthropological field research at the Sierra de Atapuerca near Burgos, Spain, consultation as a forensic anthropologist on crime and disaster scenes, and field study of giant tortoises in the Galapagos Islands. His primary research interests include human evolution in the late Pleistocene, the biology and culture of Neanderthals, issues of racism in biology and anthropology, and the history of evolutionary theory, the Newtonian revolution, ancient science, and the lives of obscure scientists whose work is often forgotten by other historians. Adam lives in Greenfield with his wife, two cats, and thousands of books, is an avid gamer, and writes fantasy, horror, and role playing games in his free time.
Naked To The Bone: A Brief History Of Medical Imaging

Study Leader: Richard Daffner

- 5 Classes: Mar. 5 – Apr. 2
- Thursday, 9:30 AM - 11:00 AM
- Wean Hall, 4707

We have all undergone some sort of medical imaging (x-ray, CT scan, MRI, and Ultrasound). How did it begin? Why does it work? This course will answer those questions as we go from Roentgen’s discovery of x-rays in November 1895 to the modern era of more sophisticated techniques, including computed tomography (CT), magnetic resonance imaging (MRI), ultrasound, and molecular imaging. Today, virtually every patient undergoes some sort of imaging as part of his or her workup for various medical conditions. This course will cover three periods: 1895-1927, the dawn of radiology, including its hazards; 1928-1972, the era of expansion and innovation; and, 1973-present, the age of modern imaging. The discussion will be “low-tech” and in terms that class participants can easily understand, particularly if they have had a high school class in physics.

Richard H. Daffner, M.D.F.A.C.R. is a retired radiologist who worked at Allegheny General Hospital for 30 years as director of the Division of Musculoskeletal, Trauma, and Emergency Imaging. He is a Certified Instructor in Wilderness First Aid, by the Emergency Care & Safety Institute and the Boy Scouts of America. His academic credentials include medical school faculty appointments at the University of Louisville, Duke University, Drexel University, and Temple University, where he is Emeritus Clinical Professor of Radiology. He is the author of Clinical Radiology: The Essentials, a text for medical students, and Imaging of Vertebral Trauma.

Study Leader: Bryan Brown

• 1 Class: Feb. 20
• Thursday, 1:00 PM - 3:00 PM
• McGowan Institute for Regenerative Medicine, 450 Technology Dr., Room 503 15219

Regenerative medicine provides the potential to repair or replace diseased or damaged tissues and organs in contrast with the current approach of treating the symptoms when the body is adversely affected by trauma, disease, or congenital deformities. Scientists and clinicians are evaluating various therapies such as using a patient’s own cells to help repair a disease or defect in the body. Advances are being made in the laboratory and in the translation of these novel therapies into clinical assessments.

Please note: Room 503, Bridgside Point 2, 450 Technology Drive - off 2nd Ave at Bates

Bryan Brown is a highly respected scientist, a committed educator, and a mentor extraordinaire. Dr. Brown currently serves as an assistant professor in the Department of Bioengineering and the Department of Obstetrics, Gynecology, and Reproductive Science at the University of Pittsburgh. Additionally, he holds an appointment as an adjunct professor of clinical sciences at the Cornell College of Veterinary Medicine.

She is particularly interested in finding possible causes for disease and disability, and lessening symptoms with lifestyle changes and natural alternatives to pharmaceuticals. She is the author of three books on managing, healing, and preventing autism. She founded and ran a non-profit organization specializing in educating parents about alternative therapies for childhood learning and behavioral problems for over 20 years. Understanding how our lifestyle choices impact our health is a lifelong passion.

Neuromodulation: A Drug-Free Approach

Study Leader: Wendy Ye

- 1 Class: Feb. 26  
- Class ID: 3124
- Wednesday, 9:00 AM - 11:00 AM
- Wean Hall, 4708

When people live with chronic pain, movement disorders, or urinary incontinence, their daily activities will be significantly limited and quality of life will be impacted. Neuromodulation may provide a drug-free option to help people with neurological diseases to manage their pain, control their hands enough to pour their morning coffee or avoid the embarrassment of an overactive bladder. This course will provide an introduction to Neuromodulation and current commercially available neurostimulation devices and new devices in clinical trials. The course will introduce concepts and briefly compare devices from different companies. Neuromodulation encompasses a diverse group of providers including neurosurgeons, anesthesiologists, pain specialists, and others. The course will also briefly address how to find available local doctors who have expertise in these areas of therapy.

Threats In Cyberspace

Study Leader: Randy Weinberg

• 5 Classes: Jan. 8 – Feb. 5  Class ID: 3164
• Wednesday, 11:15 AM - 12:45 PM
• Wean Hall, 4708

Almost every week we hear about new cyberscams, cyber-crimes, identity thefts, phishing attacks, stolen IDs and passwords, highjacked credit card numbers, fake news, foreign meddling in political processes and elections, hacking into ‘secure’ websites, and international cyber threats to important infrastructure like our electric grid, water systems, government systems, utilities, and on and on. Indeed, significant threats do exist for us as citizens, communities and nations in the globally interconnected world of cyberspace. This course covers, in broad terms, the basics of how the internet works, key challenges in cybersecurity, various cyber threats and defenses for individuals and organizations, building resilience, and the asymmetric threats of cyber attacks as means of warfare.

Randy Weinberg taught Information Systems for over 30 years and is retired from the CMU faculty. He has long been interested in the state of the environment, sustainability, and underlying principles of equity. His classes at CMU included “IT and Sustainability” and “Geographic Information Systems” in addition to involving students in projects with an environmental focus.

Computer Vs. Humanity

Study Leader: James Morris

• 5 Classes: Mar. 3 – Mar. 31  Class ID: 3148
• Tuesday, 11:15 AM - 12:45 PM
• Wean Hall, 4707

Computer technology in the form of the internet and artificial intelligence is disrupting humanity. Experts vary on whether or when artificial intelligence becomes a dominant force in human affairs. Assuming that it will happen, what should we do? The answer depends more on understanding humans than computers. Each student will read a book on the topic and lead a discussion about it in a class. A list of suggested books will be provided, and I can lend most via Kindle.

James H. Morris is a Professor Emeritus of Computer Science and Human-Computer Interaction at Carnegie Mellon University. He received a Bachelor’s degree from Carnegie Tech, and an MBA and Ph.D. in Computer Science from MIT. He taught at the University of California at Berkeley, where he contributed to some important underlying principles of programming languages: continuations, module invariants, and lazy evaluation. He was a co-discoverer of the Knuth-Morris-Pratt string-searching algorithm. For ten years, he worked at the Xerox Palo Alto Research Center, where he was part of the team that developed the Alto System, a precursor to today’s personal computers. From 1983 to 1988, he directed a joint Carnegie Mellon-IBM project that developed a prototype university computing system, Andrew. From 1992 to 2004, he served as department head, then dean in the School of Computer Science. He held the Herbert A. Simon Professorship of Human Computer Interaction from 1997 to 2000. He was the dean of the Silicon Valley campus from 2004 to 2009. He was a founder of MAYA Design, a consulting firm specializing in interactive product design. He also founded Carnegie Mellon’s Human Computer Interaction Institute, Robot Hall of Fame, and Silicon Valley Campus.

The Female Sleuth: Gender Norms And Mysteries
Study Leader: Phyllis Kitzerow

- 4 Classes: Jan. 9 – Jan. 30 Class ID: 3125
- Thursday, 11:15 AM - 12:45 PM
- Wean Hall, 4708

This course will focus on the development of the female sleuth and her growing popularity. From Miss Silver and Miss Marple to the tough present day female sleuths, we will trace gender norms and their contraventions. The class will be a combination of lecture, video, and readings. Students will be expected to buy one paperback to read and discuss in class. This course is not a literature course. I will be teaching as a sociologist and will not toss around literary terms or possibly even recognize them. My interest is in the application of sociological concepts to mystery fiction. My background in reading mysteries, starting with Nancy Drew and continuing to the present, will be combined with my background in sociology and my interest in gender. I invite people interested in that combination to join me in exploring these three strands even though your favorite author may never be mentioned.

Phyllis Kitzerow has a Ph.D. in Sociology and retired from Westminster College in 2011 after 40 years of teaching. Her areas of interest are gender, deviance, and race/ethnicity. She is the recipient of a Distinguished Faculty Award from Westminster and the author of Women Attorneys and the Changing Workplace: High Hopes, Mixed Outcomes. Dr. Kitzerow has previously taught an Osher course entitled “Women’s Lives as Portrayed in the 1900 House.”

A Short History Of Happiness

Study Leader: Joseph Givvin

• 5 Classes: Jan. 6 – Feb. 10*
• Monday, 1:15 AM - 2:45 PM
• Wean Hall, 4708
*Note: Class will not meet on Jan. 20

What is the one thing we all want? Happiness, the good life, fulfillment. The names may differ, but all of us are seeking the greatest good of life. Can we find it in this world? Can the serial killer and the saint be said to be pursuing the same happiness? Alternatively, could some paths to happiness be better than others? And if so, how do we find them? For centuries, prophets and philosophers have tried to answer these questions. Today scientists and all of us wrestle with these questions. We will explore some of the diverse historical perspectives to see if any of them offer insights into your own happiness and the happiness of others.

Joe Givvin Ph.D. has returned to live in the Pittsburgh area after 33 years of teaching at Mount Mercy University, Iowa, where he is Professor Emeritus. He has been a member of the American Association of Philosophy Teacher’s (AAPT) since 1984 and has presented 12 workshops on teaching philosophy at AAPT conferences. He has also chaired two conferences sponsored by the AAPT. As a result of his work for the AAPT, he was presented an “Award of Merit for Outstanding Leadership and Achievements in the Teaching of Philosophy.” He greatly enjoys the opportunity to teach in the Osher Program and engage with curious minds in thoughtful conversation, especially about humor and happiness and the ethical aspect of human life.

Six Steps To Becoming A More Logical Thinker

Study Leader: Joseph Givvin

• 6 Classes: Mar. 2 – Apr. 6
• Monday, 2:45 PM - 4:15 PM
• Wean Hall, 4707

Logic, said Aristotle, the father of logic, is the mind’s instrument for getting at the truth. This class will help you by introducing or refreshing your mind with the basics of logic. We will start with the art of defining. Then move on to the task of exploring reasoning. We will begin by checking the mechanics of our reasoning, next examining claims about truth and the different types of arguments. Next we will look at the common pesky mistakes that plague our thinking. We will end by evaluating arguments on some critical issues. I suggest you obtain either a printed or electronic copy of A Rulebook for Arguments Fifth Edition, by Anthony Weston. I will also be emailing you all course materials. I suggest that you bring with you a copy of each week’s material, either a printed copy or an electronic copy.

See Joe Givvin, previous listing

Respond to the Monkey in your email!

We are sometimes asked why we keep offering that boring, mediocre course. The answer is, we didn’t know it was. The members of Osher at CMU decide which courses continue and which don’t! To get everyone’s feedback, we now use a system called Survey Monkey. We are now asking for feedback on all new courses, problem courses, and random, frequently offered courses. Your opinion really counts. If you didn’t get a Survey Monkey or want to comment on a course, send an email to the office. Thank you for your input!

- Wednesday, 1:00 PM - 3:00 PM
- Wilkins Community Center, 7
  604 Charleston Ave., Swissvale

*Note: Class will not meet on Apr. 8

Improvisational comedy has been gaining popularity all over the world. This class will introduce students to some of the core principles of improv: agreement, listening, play, emotion, collaboration, and support, through warm-up activities, group exercises, and performance games. These same principles can also improve our everyday life experience, and this class will help students build those connections to strengthen interpersonal communication, emotional and body awareness, supportive group function, and self-confidence.

Brian Gray began improvising in 2002, while earning his bachelor's degree at Carnegie Mellon. He created and teaches an elective at CMU's Dietrich College, in which he uses applied improv and other techniques to teach soft skills to engineering students. He created Improv Pop-Up Night, a monthly beginner drop-in workshop at the Arcade Comedy Theater in Pittsburgh's cultural district. He has taught and performed improv throughout the U.S., including Austin, Baltimore, Detroit, New Orleans, Phoenix, Philadelphia, and Pittsburgh. He performs monthly at Arcade with his teams Irony City and Kill Screen, and is a co-founder and Education Director of the Pittsburgh Comedy Festival.

Chris Leone has been performing for over 30 years — first as a musician and more recently including improv comedy. He has performed all over the U.S., and in Canada and Europe. In addition to performing improv regularly, he currently produces and acts in “the smallest show in town,” Pittsburgh’s only monthly, family-friendly variety show. He has also taught improv classes at the Arcade Comedy Theater and for Open Up Pittsburgh. Chris loves the way that improv skills training has improved other aspects of his life experience. He also loves helping others improve their lives while having fun!

- 5 Classes: Mar. 3 – Mar. 31  
  Class ID: 3151
- Tuesday, 1:00 PM - 2:30 PM  
- Wean Hall, 4708

We will trace the experiences of women of all races in British American colonies before the War for Independence. The experience of women depended greatly on class and race, but all raised families, contributed to the economy, and sometimes caused trouble. Outnumbered by men throughout much of the first 200 years of American history, women were nonetheless crucial to the development of the colonies. The course will explore ways women influenced life and the economy in the colonies, exercised leadership, interacted with the law, and pursued their spiritual, family, and intellectual lives.

**Joan Gundersen** is professor emeritus of history at California State University, San Marcos. Author of 7 history books, and numerous scholarly articles, she taught women's history for more than 30 years at a variety of institutions, including Vanderbilt University, St. Olaf College, CSU San Marcos, and Elon University. She came to Pittsburgh in 2000 as a senior administrator for Chatham University. More recently she has worked for the Episcopal Diocese of Pittsburgh as an administrator and archivist. Recipient of several awards for teaching and writing, she enjoys sharing the fascinating world of women's history with others.
Adolf Hitler and Franklin Roosevelt enter onto the world stage within six weeks of each other. This is a course that will look at these two historic protagonists. We will jump back and forth across the Atlantic to consider action and reaction as horrific events unfold in the 1930s and 1940s. While the Jewish view of Hitler has never changed, some Jews today view FDR very differently than Jews did during his lifetime. Why? How are we to view FDR today? Let’s discuss.

How did America grow from a weak nation on the Atlantic Coast to a continental and world imperial power in only one hundred years and survive a civil war in the process? We will also review the Constitution as amended to place it in the context of our development.

Arthur Goldberg is a dedicated amateur historian focusing on the American scene from its earliest roots. Study Leader: Jean Domico, Bill Stout

• 2 Classes: Feb. 19 and Feb. 26  Class ID: 3195
• Wednesday, 11:15 AM - 12:45 PM
• Wean Hall, 4708

Before becoming known for iron and steel, Pittsburgh was America’s Glass City. From its first factories in the late 1790s, Pittsburgh glass companies fashioned products for pioneers traveling west, steamboats on the Ohio, local, wealthy, Presidents Madison, Monroe, and Jackson, etc. H.J.Heinz had his own factory to produce the clear glass bottles to showcase the high quality of his products. Learn how companies branched out to create their own cities; how technology changed the industry and finally eliminated jobs filled by the “glass house boys”, and more. This two-day class will be followed by a tour of the “Shattering Notions” exhibit at the Senator John Heinz History Center led by class instructors. The tour date will be arranged based on class consensus.

Jean Domico and Bill Stout were born and raised in Millvale. Their grandfathers were brothers who emigrated from Austria and Hungary in the early 1900s, settled in Millvale, and worked in the area’s mills. They are co-authors of the Arcadia Publishing Images of America, a book on Millvale published in March 2014. Jean is a retired Prudential executive with a substantial background in project and computer operations management. She possesses a bachelor of arts degree from Wheeling Jesuit University and a master’s degree in archaeology and heritage management from the University of Leicester, UK. She has served on the board of directors of a historical house/tavern in Englishtown, NJ, and has dug at the supply fort for Hadrian’s Wall in the UK. Jean currently volunteers as a docent at the Heinz History Center. Bill is a distinguished alumnus of I.U.P. and has an M.A. degree in museum studies from F.I.T. NYC. He is the first registrar of the Frick Collection, NYC, and an adjunct professor at several Manhattan-based universities. Before returning to his hometown, he owned his own art consulting business. The History Of Professional Baseball In Pittsburgh

Study Leader: David Fortun

- 5 Classes: Jan. 9 – Feb. 6
- Thursday, 9:30 AM - 11:00 AM
- Wean Hall, 4708

Pittsburgh has a rich tradition in professional baseball that originated in 1887 with the arrival of the Pittsburgh Alleghenies to the North Shore. The 20th century was highlighted by championships won not only by the Pirates, but also by the Negro League teams representing Pittsburgh: the Homestead Grays and the Pittsburgh Crawfords. In this course, the histories of these franchises will be joined with the histories of the Pittsburgh ballparks. Special attention will be paid to Hall of Fame players, batting champions, players whose numbers have been retired, and champion teams. A trip to PNC Park and/or a guest appearance by a Pittsburgh baseball authority will enhance the rich legacy of professional baseball in Pittsburgh, a legacy familiar to many Osher members.

David Fortun is a retired English teacher from Shaler Area High School. He has taught six etymology classes in the Osher program at Carnegie Mellon. A lifelong baseball fan, he has conducted tours at PNC Park for 12 years and has shared his knowledge of Pittsburgh baseball with his fellow Osher learners.

City of Asylum is a sanctuary for writers from around the world under threat of persecution, as well as a presenting arts organization focused on giving voice to artists who are often excluded from traditional artistic spaces. In doing so, City of Asylum creates a thriving community of writers, readers, and neighbors. During this course, your group will learn how City of Asylum’s unique model has helped anchor the development of the Garden Theater Block with a cultural center that includes a performance space, bookstore, and restaurant. It has built a diverse audience, and protects free expression while fostering cross-cultural exchange.

Please note: Class has its first portion inside Alphabet City, and the second portion is a 0.5 mile walk to Sampsonia Way and Reading Garden where the writers live. (Transportation to Sampsonia can be arranged.)

Host Family Program For International Students

Study Leader: Christine Asenjo

- 1 Class: Feb. 18
- Tuesday, 3:15 PM - 4:45 PM
- Wean Hall, 4707

The Host Family Program, now entering its fourth year, provides an opportunity for Osher members and others in the CMU community to get to know our international students. From its inception, Osher members have been an integral part of this program that has reached hundreds of students, many of them traveling outside their home country for the first time. Hosts are paired with 1-2 students and agree to get together once a month or so. This level of interaction allows for friendships to develop and for our Hosts to become true Pittsburgh ambassadors. Many graduates say that the Host Family helped them feel part of the larger local community.

Christine Asenjo is International Programs Coordinator in the Office of Education, Carnegie Mellon University. She received her B.A. in English and Technical Writing at Penn State; and her M.A. in Religious Studies at the University of Pittsburgh. Her research focus was on the weekly abhishekam puja (ritual) for Lord Vishnu. She has visited India twice, and her field research for the degree was conducted at the Sri Venkateswara Hindu Temple in Penn Hills. It is one of the most-revered Hindu temples outside of India, and she has spent the last 20 years taking visitors there. It's a privilege to introduce people to this faith and to share this wonderful cultural resource here in Pittsburgh.

Civil Liberties In The Trump Age

Study Leader: E. J. Strassburger

- 6 Classes: Jan. 7 – Feb. 11
- Tuesday, 5:30 PM - 7:00 PM
- Wean Hall, 4708

The course will offer weekly in-depth presentations and discussion on civil liberties "hot topics." Each weekly topic will be presented by an engaging local legal expert. The topics will be current and timely—some speakers will be recruited based on issues in the news at the time. Specific content will be different from previous offerings of this course. Presented by the Pittsburgh Chapter of the ACLU-PA in memory of Nat Melamed.

E. J. Strassburger is the immediate past president of the Pittsburgh Chapter of the American Civil Liberties Union of Pennsylvania. He has been an attorney for more than 45 years, with concentrations in complex commercial litigation, municipal law, appellate practice, as well as estate planning and administration. He was president of Strassburger McKenna Gutnick and Gefsky — the law firm founded by his grandfather — for almost 25 years. He and his wife live in Squirrel Hill. They have two grown children and two grandsons. He is the third generation of lawyers on both the paternal and maternal sides of his family. His son and nephew represent the fourth generation in the firm. An active community volunteer, E.J. is past president of the Neighborhood Legal Services Association, Academy of Trial Lawyers of Allegheny County, and Jewish Residential Services and was a member of the August Wilson Center Recovery Committee. An engaging speaker with a radio-quality voice, E. J. taught four previous courses on civil liberties at Osher.
Nativism In The United States

Study Leader: Jack Ochs

- 2 Classes: Apr. 17 and Apr. 24  
- Friday, 11:15 AM - 12:45 PM  
- Wean Hall, 4708

Nativism and xenophobia are not new to the United States. In this course, we propose to trace some of their history from the Know Nothing party of the 1850s through the re-emergence of the KKK in the 1920s. Much of the course will reflect two contemporary books: Daniel Okrent’s *The Guarded Gate: Bigotry, Eugenics and the Law That Kept Two Generations of Jews, Italians AND Other European Immigrants Out of America*; and Linda Gordon’s, *The Second Coming of the KKK. The Ku Klux Klan of the 1920’s and the American Political Tradition*.

Jack Ochs retired as Professor of Economics at the University of Pittsburgh. He enjoys developing courses for Osher on a variety of public policy issues.

The Electoral College: Time For A Change?

Study Leader: Susan Hansen

- 1 Class: Feb. 20  
- Thursday, 3:15 PM - 4:45 PM  
- Wean Hall, 4708

What is the Electoral College, and why is it a part of the US Constitution? The Founding Fathers’ distrust of majority rule has led to presidential elections, such as those of 2000 and 2016, contravening the popular vote. We will consider the major alternatives to the Electoral College and their chances of being adopted.

Susan B. Hansen is professor emerita of political science at the University of Pittsburgh, where she taught a course on women in politics every year since 1980. She received her Ph.D. degree in political science from Stanford University in 1972 and has also taught courses in American politics at the universities of Washington State, Illinois, and Michigan. She has taught a class, “A Woman for President?” for Osher at the University of Pittsburgh, and at CMU has taught “The Politics of Sex” and “The Politics of Reproduction.” She recently completed a book, *The Politics of Sex: Public Opinion, Parties, and Presidential Elections* (Routledge, 2014).

Political History Of The Middle East: The Story Continues

Study Leader: Ram Kossowsky

- 6 Classes: Mar. 3 – Apr. 7  
- Tuesday, 11:15 AM - 12:45 PM  
- Wean Hall, 4708

This class is designed to bring to life accomplishments of ancient societies, some that would be an enviable to the Romans. We will discuss the “first Commercial City of Ur, 22 C BCE, on the shore of the Persian Gulf; the Minoan civilization of Crete that flourished from about 3000 BCE to about 1100 BCE; The Etruscans “The forgotten forbears of the Romans”, The Assyrians, who established the first, efficient Empire. We should devote time to discuss the Golden Age of Islam, which introduced the West to the Wisdom of the ancient Greeks and Indians.

Ram Kossowsky, a native of Israel, has lived in Pittsburgh since 1966. He earned advanced degrees in material science from the University of Pennsylvania. He spent 20 years at the Westinghouse Research Center, and 6 years at Penn State University. He has worked as an independent consultant since 1990. His passionate hobbies include the study of history of ancient societies, with emphasis on the Near East, and shooting and editing movies of his travels. He presented the courses “India, Then and Now” and “Ancient Societies Expressions in Stone” during past Osher-CMU and PITT OLLI semesters, and monthly installments of a study of “Archaeology of Ancient Israel” at Temple Sinai and Osher-CMU. He was invited to present a lecture on “Ancient Codes of Law” and “Ethnogenesis of Israel” at meetings of the Biblical Archaeology Society of Pittsburgh. In April 2012 he took on the task of the president of the Biblical Archaeology Society of Pittsburgh.
The BREXIT Divorce: What Happened?

Study Leader: Gordon Hargreaves

• 1 Class: Feb. 19
• Wednesday, 1:00 PM - 3:00 PM
• Wean Hall, 4708

BREXIT is the proposed exit by the United Kingdom (UK) from the European Union (EU). The original date for the exit to be complete was March 31, 2019, but this did not happen, as the UK parliament was unable to approve an exit plan acceptable to the EU by the March deadline. A new deadline, of Oct 31, 2019, was agreed to by the EU. By the date of this class, the final UK/EU status will presumably have been determined, and we shall review the evolution of, and the essentials of the final deal. Did we finish up with Hard, Soft, or No Deal Brexit, or even a decision to remain in the EU? We shall discuss the economic and political impact of the final deal on the UK as it moves ahead its new relationship with the EU.

Gordon Hargreaves was born and raised in England, and studied engineering at Leeds University and Imperial College, London. He came to the US in 1963 to work for Westinghouse Electric. Still here after all these years, he maintains close contacts with many family and friends in the UK, and makes frequent visits (the latest in July of this year). He has been following the Brexit process with great interest and concern.

Agricultural Collectivization In A Russian Region

Study Leader: Charles Hier

• 6 Classes: Jan. 7 – Feb. 11
• Tuesday, 9:30 AM - 11:00 AM
• Wean Hall, 4708

In the Communist Manifesto, Marx and Engels argued that the working class was the agent of social progress. But when a government based on this ideology came to power in Russia after WWI, the working class constituted only 4% of the population. The vast majority of Russians—say 85%—were peasants. Peasants have different conditions of life and consequently a different mentality. When Soviet leaders resolved on the necessity for modernization—the Five-Year plans—the modernization of agriculture, was a necessary component. But peasants are quite different from workers, and motivating them to undertake a whole new method of work was a quite different problem from motivating workers. The guidebook for that undertaking had not been written. This course tries to understand how the Soviet state accomplished this.

Chuck Hier studied at Rice (philosophy BA), New York University (philosophy MA), Boston College (history MA), and Pitt (history Ph.D., 2004). He traveled to the former Soviet Union and later, Russia for archival materials for his dissertation on collectivization on a county-sized area near Smolensk, Russia. He has taught history at a number of places near Pittsburgh—University of Akron, West Virginia Northern Community College, IUP, Slippery Rock, and Carlow, but mostly at Pitt and Duquesne, where he teaches now. He has taught in the Osher program at Pitt for eight years. The subject matter of this course comes from his dissertation, but the larger context of Soviet history has been developed by him in classroom teaching for 15 years, and he has combined these two perspectives in this course.

RELIGION/PHILOSOPHY

An Introduction To Sikhism

Study Leader: Christine Asenjo

• 4 Classes: Jan. 6 – Feb. 3*  Class ID: 3191
• Monday, 3:15 PM - 4:45 PM
• Wean Hall, 4708
*Note: Class will not meet on Jan. 20

Sikhism is a monotheistic religion founded in the 1500s in Punjab, India. Its adherents believe in one supreme God, a spiritual presence beyond physical existence. Sikhs believe that life is not sinful in its origin, but that life has emanated from a pure source, and the True God abides in everyone. They adhere to an ideology of optimism and hope, having an honor-bound duty to save others from danger and oppression and to stand up for their own, as well as others', rights. An ideal Sikh, a warrior-saint, is one who frightens no one and is afraid of no one. The course will cover the history and geography of the Punjab region, the religion’s basic beliefs, and how politics has shaped the Sikh identity. Their distinct belief system, code of conduct, and sense of honor help to inspire them to lead moral and courageous lives.

Will The Real 10 Commandments Please Stand Up?

Study Leader: Barbara Symons

• 5 Classes: Jan. 8 – Feb. 5  Class ID: 3150
• Wednesday, 1:00 PM - 2:30 PM
• Wean Hall, 4708

The Ten Commandments are both publicly displayed and often displayed within our houses of worship. They are touted as more important than other commandments. Together we will work toward a better understanding of the original Hebrew works their translation, and interpretation, with implications of how we are to observe them. While taught from a Jewish perspective, the more voices, the deeper the revelation.

Barbara Symons has served as the Rabbi of Temple David in Monroeville for 13 years. She is very involved in the Monroeville Interfaith Ministerium and in strengthening the community through teaching and modeling beyond tolerance to celebrating diversity.

GENERAL INFORMATION & POLICIES

Classroom Locations
If you are not familiar with Carnegie Mellon, we strongly advise you to visit the campus, bring the campus map, and find your classroom locations before the first day of classes. The CMU Information Desk is in the Cohon University Center, 1st level (#9 on the map). You’ll find the campus map on the previous two pages or go to the CMU website to see campus maps.

Photos and Videos
- Photographs and videos are taken at many Osher events.
- The photos may be used in course catalogs, the website, newsletters, brochures, or other publications.
- We encourage our members to share their photos and videos by emailing them to osher@cmu.edu.
- If you do not wish to have your photograph taken, please advise the photographer.

Classroom Etiquette
All of Osher’s instructors are volunteering their time and talents. Please be respectful of your course instructors and fellow participants by:
- attending only course(s) for which you have registered
- arriving to class on time and silencing your cell phone
- raising your hand to be recognized and stating your name each time before you speak
- staying on topic during discussions
- respecting the instructor’s time at the end of class
- not wearing fragrances out of respect for those with sensitivities

Email Notifications
Study Leaders will frequently email handouts, assignments, and class notices to their students. It is important that we have your current email address:
- The Osher office will send “broadcast emails” to remind you of upcoming Osher or Carnegie Mellon activities. The Weekly Essentials can be found on cmu.edu/isher.
- We recommend you use an email provider other than AOL or Verizon.
- The Osher office will send email notices to specific classes for important course changes.

Handicapped Parking - $50 per term

This handicapped space will be for the exclusive use of mobility-challenged Osher members who have a state issued disabled parking placard and have pre-registered for this spot. It is on a first-come, first-served basis. Cost for a member is $50 per term. If you are interested in knowing more, please call Jim Reitz at 412-521-6575. Call the office to purchase a handicapped parking permit.

Coming Soon . . .
Our Osher Members’ Lounge!

For the first time in Osher history, we will have a dedicated members’ lounge in our new space in Cyert Hall! A kitchenette with a microwave, refrigerator, and coffee maker will enable members to grab a cup of coffee, a quick lunch, or snack between classes. And, it will give members the opportunity to relax, recharge devices, and socialize with friends and study leaders before or after class.

It will be a flexible space that can accommodate a variety of activities.

It’s a concept now, and we are working closely with the architects to finalize the plans.

We must raise the necessary funds to pay for the lounge, and the classrooms, and the office.

Join the effort to help raise the $1 million dollars necessary to make our new home a reality! If you would like to make a major gift, you may spread your contribution over a period of three years.

Together we can do this!

To donate, use the DONATE button on our website or call the office for assistance.
