PERIOD OF PERFORMANCE: _______________
CURRENT CMU AWARD NUMBER: __________

IN REGARDS TO THIS REQUEST:

ANTICIPATED AWARD:
PERIOD OF PERFORMANCE:
FUNDING LEVEL (IF KNOWN):
DEPARTMENT CONTACT PERSON:
TELEPHONE:

DESCRIPTION OF REQUEST AND JUSTIFICATION:
CERTIFICATIONS & APPROVALS:

An early award is requested when a need exists to incur costs prior to completion of negotiation of an award, receipt of an amendment or fully executed award document. A written authorization from the sponsor may also be needed based on award terms. Upon approval of an early award, the work can begin at the PI’s risk.

The work conducted under risk should NOT involve any compliance related items including human subjects, animal research, stem cells, select agents or export controls unless approved protocols, licenses or infrastructure is in place prior to starting work, or a written notification from the appropriate compliance department that these are not required for the early request.

In the event the award described above is not received, terms cannot be agreed to, or if the award does not coincide with the final performance period identified above any costs incurred as a consequence of this request will be charged to the account assuming financial risk.

The PI/technical lead may be required to use discretionary funds to cover such incurred costs.

The dean and department head agree to make funding available for the costs incurred in the event the award cannot be finalized or does not coincide with the anticipated performance period.

All departmental parties concur with this action.
