Things to think about

- What is sustainability, really?
- Who “owns” the post-industrial city, especially those that can be labelled “global”?
- Remaking the physical city is hard. What about remaking political boundaries?

The background of the top section is a solid red color. A large, faint watermark of the Rutgers University seal is visible, featuring a wheel with spokes and a laurel wreath. The word "RUTGERS" is partially visible within the seal's border.
