Interested in joining an organization's dlist or their social media? Below are organization descriptions, dlist signup links, and their social media. Find even more info on [The Bridge](#).

Alpha Epsilon Delta

Alpha Epsilon Delta is a National Health Preprofessional Honor Society dedicated to the encouragement and recognition of excellence in preprofessional health scholarship. This Co-ed Fraternity welcomes students engaged in the pursuit of a professional development, provides a forum for students with common interests, and extends a program of service to benefit the college/university community. AED helps guide students into professionals of integrity with a lifelong commitment to guiding principles of philanthropy and education through mentoring, fellowship, service, and formal training.

Carnegie Mellon Business Association

CMBA is an organization that seeks to prepare students for the professional world of business. As a channel for developing soft skills, CMBA supplements academic curriculum through real-world experience in establishing connections with professors and industry professionals. The mission of CMBA is to provide students with the opportunity to learn about and engage with the various aspects of business and the professional world. From networking to industry panels to LinkedIn workshops, we aim to help our fellow peers hone the skills relevant to interviewing, searching for jobs, and presenting well in any professional industry.

Carnegie Mellon Data Science Club

The CMU Data Science Club's goal is to provide an incubator for students at CMU interested in Data Science. We aim to create an active community of interdisciplinary innovators in Data Science.

- [Dlist Signup](#)

Carnegie Mellon Futurist Club

Engage the interdisciplinary community of bleeding edge thought leaders at CMU by integrating ideas and skill sets to project our work into the future. Mission: Host industry thought leaders and engage CMU students in group design sessions to proactively think about the impact of technology, philosophy, and culture on the future.

CMU Women in Science

Hello! We are the Women in Science Club! We welcome all people of gender, major, and college into our organization. Our club's objective to promote a strong community of support, service, and education for women studying the sciences and their peers. We strive to help women form connections between graduating classes and between women of different majors, give women access to information about women in academia and in the job market, and help students get to know their professors and their peers.

First Together

The mission of the FIRST Together program is to enhance the overall success of First Generation students on our campus. At CMU, it means you are the first in your family to go to college or your parents received an Associate's degree, attended a 4-year college/university, but did not graduate. Through our intentional and proactive efforts, we offer student-centered opportunities designed to support the academic, professional and campus engagement experiences of our students.

National Society of Black Engineers

The National Society of Black Engineers (NSBE) is one of the largest student-managed organizations in the country, with more than 29,000 members nationally. The organization is dedicated to the academic and professional success of African-American engineering students and professionals. NSBE is comprised of more than 242 chapters on college and university campuses, 70 professional and 75 pre-college chapters. These chapters are geographically divided into six regions. CMU NSBE is located in Region 2 along with universities in Pennsylvania, Delaware, Maryland, Virginia, West Virginia, Washington DC, North Carolina, and South Carolina.

Neuroscience Student Advisory Council

NeuroSAC aims to foster professional relationships among neuroscience students, and to spread awareness of and education about neuroscience to the CMU campus and the greater Pittsburgh community. The purpose of NeuroSAC shall be to: (1) encourage professional interest and excellence in scholarship, particularly in neuroscience; (2) award recognition to students who have achieved such excellence in scholarship; (3) advance the discipline of neuroscience; (4) encourage intellectual and social interaction between students, faculty, and professionals in neuroscience and related fields; (5) promote career development in neuroscience and related fields; (6) increase public awareness of neuroscience and its benefits for the individual and society; and (7) encourage service to the community. All activities and functions of the Organization must be legal under University, local, state, and federal laws.

Quant Club

Quant Club focuses on the study of quantitative finance, more specifically areas in finance where the study of mathematics and other computational aspects are emphasized. In addition, we host events that provide opportunities for members to get familiar with the quantitative finance industry.

- [Dlist Signup](#)

Scottie Ventures

Scottie Ventures is a student organization that teaches skills to aspiring venture capitalists through classroom-style educational sessions, matched with experiential learning opportunities including individual and team presentations, competitions, and internship assignments. Our focus on the real-world application of skills taught by our leadership team is matched with our alumni involvement and internship work with our partner VC and PE firms across the nation.

- [Dlist Signup](#)

Society of Asian Scientists and Engineers (SASE)

SASE is dedicated to the advancement of Asian heritage scientists and engineers so that they can achieve their full career potential. In addition to professional development, SASE encourages members to contribute to the enhancement of the communities in which they live.

- [Instagram](#): @cmusase

Society of Women Engineers

As the Carnegie Mellon University SWE Section, we not only value the national SWE mission but also promote engineering and other STEM fields for women by providing an avenue for building relationships with peers, networking with professionals, and giving back to the CMU and Pittsburgh communities. In addition, we do our best to extend these opportunities to anyone who supports women in STEM.

- [Instagram](#): @cmuswe

The Society of Hispanic Professional Engineers (SHPE)

The Society of Hispanic Professional Engineers strives to increase the number of Hispanic engineering and science students at Carnegie Mellon University through the development of programs with industry, the university, and the community. The activities are designed to increase career awareness, encourage relationships with professionals, develop leadership skills, and promote academic excellence. SHPE also holds several fun cultural and social activities adjacent to SALSA.

Undergraduate Consulting Club

Founded in 2002, UCC is the organization behind all things consulting at Carnegie Mellon. From helping companies organize recruitment events to working with local organizations, UCC has a broad range of involvement both within Carnegie Mellon and the Pittsburgh community.

- [Dlist Signup](#)

Undergraduate Entrepreneurship Association

The Undergraduate Entrepreneurship Association (UEA) helps Carnegie Mellon University students dream the impossible and accomplish the remarkable. We connect founders to the Pittsburgh and Silicon Valley ecosystem, and provide access to mentorship, resources, strategic advice, and our network of alumni founders and investors. Through innovative workshops, hackathons, and competitions, we create an environment for aspiring entrepreneurs to jump start their pursuits and build their own companies.

Women in MechE

Women in MechE is a community of female mechanical engineers, which seeks to connect them with experienced professionals, through social and professional events. It works to create an open panel where female mechanical engineers can share their experiences and advice, while also learning more about the profession. It is founded to encourage members to fortify their presence on campus and become leaders in the field.
