PART II

Presenting Your Plan

PART III

Creating Financial Projections
PART I

Emerging Growth Companies

Venture Capital Trends
Our commitment to companies like yours

**Deloitte Emerging Growth Companies**

Our emerging growth company practice is a part of our national Deloitte Growth Enterprise Services practice.

Private companies form the backbone of our economy. At Deloitte, more than 50% of our U.S. clients operate in this sector.

Our Deloitte Emerging Growth Company practice, and its professionals who will be serving you, fully understand and are focused on addressing the unique needs and challenges of companies like yours. Some of those challenges are:

- Financing your business
- Executing your strategy
- Anticipating market forces
- Organic growth, acquisitions, other transactions
- Risk management
- Reputation in capital markets
- Sustainability

**Our Deloitte Emerging Growth Company approach**

At Deloitte, we serve all our clients with the same passion, quality, and audit and tax sophistication, while tailoring our approach to the unique circumstances of each company.

Our Perspectives program is a multifaceted series of live events, signature reports, research publications, webcasts, podcasts, and other vehicles that deliver tailored and relevant insights to privately held companies in an integrated fashion.

Deloitte Growth Enterprise Services held its third Private Perspectives live event on May 9, 2012, featuring guest speaker Jeff Immelt, chairman and CEO of GE, and a panel discussion with senior Deloitte leaders. Previous events featured former Federal Reserve Chairman Alan Greenspan and former President Bill Clinton.

These events are simulcast to dozens of locations in the United States where Deloitte professionals and private company executives meet to listen to the program and then discuss the issues among themselves. These are excellent forums for networking, and we welcome the participation of GridSpeak executives.

Click on the link below, or paste it into your browser, and you will access our Deloitte Growth Enterprise Services website, where you can read our proprietary surveys on issues relevant to private companies, client newsletters, and more: http://www.deloitte.com/view/en_US/us/Services/deloitte-growth-enterprise-services/index.htm
Global leadership and strength

The Deloitte member firm organization, Deloitte Touche Tohmatsu Limited, is the largest professional services network in the world. Approximately 182,000 professionals in more than 150 countries demonstrate their commitment to a single vision: to be the standard of excellence.

Deloitte is the global leader in professional services, and we understand the risks, rewards, and complexities of business today. Our multidisciplinary approach – drawing from the experience of our audit, tax, consulting, and financial advisory professionals – gives our teams a broader perspective on emerging issues and leading practices, and we bring that knowledge to you. Through years of experience, our professionals have gained the ability to anticipate and respond to our clients’ needs in today’s economy.

No matter what business challenge you’re facing, our team has likely faced the same challenge or something similar. In addition, we provide access to our global network of resources who know and understand your industry, issues, and opportunities.

Together, in a culture of collaboration, we offer the capability through our local service team to deliver insights that others might miss.

Deloitte by the Numbers

**Worldwide**
- Approximately 182,000 professionals located in more than 150 countries
- 55 member firms
- More than $28 billion in revenue
- Deloitte’s global organization serves nearly 90% of the technology, media, and telecommunications companies in the Fortune Global 1000

**National**
- More than 51,000 professionals
- 100 offices in nearly 90 cities
- More than $10 billion in revenue
- Our U.S. network of more than 4,500 professionals provides audit or non-audit services to more than 1,400 clients in the technology, media, and telecommunications industries

**West Region**
- More than 5,000 professionals in 11 locations
- Fastest-growing venture capital practice
- Fastest-growing emerging growth practice
- Washington national tax office west
- National office west — accounting consultations
Initial public offering experience

Over the last ten years, Deloitte & Touche LLP and Deloitte Tax LLP have assisted with more than 265 IPOs in the U.S. Our team consists of professionals with extensive experience with the IPO process. Our commitment to responsive service and meeting client expectations will assist in your successful transition to a public company.

Several recent IPOs where Deloitte was the auditor include:

**Technology, media, and telecom (TMT) IPOs from Q1 2007–Q1’12**

Deloitte leads in TMT IPOs

From January 2007 through March 2012, Deloitte assisted with more than 50 IPOs in the technology, media, and telecom industry, and 25 software company IPOs – both first among the Big Four.

PART II

The Fundraising Process

Tools for Financing your Company

Presenting your Plan
Sales Process

Prepare: 1 to 2 Months
Approach: 1 to 3 Months
Term Sheet: 1 to 2 Months
Sales Process (Prepare)

Key Elements include:
- Create Runway (or Perceived Runway)
- Get Current Investor Commitment
- Scrub The #s
- Align The Organization
- Define Your Objective
- Define Roles & Responsibilities
- Prepare Sales Tool Kit
- Identify Targets
- Create Scarcity Value
Sales Process (Approach)

1 to 3 Months

Key Elements include:

• Get Referrals
• First Meeting
• Subsequent Meetings
• All-Partners Meeting
• Consultant Meetings
• Customer Meetings
• Due Diligence
• Site Visit
• Term Sheet (or Pass)
Sales Process (Term Sheet)

Key Elements include:
• Negotiate
• Draw Legal Documents
• Signature
• Pre-Close Review
• Close
• Confirm $ Deposited
• Due Diligence IS Still Happening!

Term Sheet
1 to 2 Months
Financing your Company

- Be realistic on timing and pricing
- Become a great writer and spreadsheet jock
- Plan your approach using all resources
- Practice, practice, practice
- The first term sheet is often the best
Financing Tool Kit

- Elevator Pitch
- Story/Demo
- Presentation
- Executive Summary/Plan
- Due Diligence
Elevator Pitch

Definition
• 2-3 sentences that defines the market, customer, problem/solution and uniqueness of the business
• Place on slide one (display as brief bullets with a graphic)

Framework
• What market are you in?
• What urgent problem are you solving?
• What is the size of the opportunity?
• Why will you win (differentiation, barriers to entry, unfair advantage)?
• Where is the validation (customers, investors, etc.)?
Elevator Pitch

$35 billion is what US commercial medium-duty truck fleets spend each year on fuel. Wrightspeed has invented an extended range electric truck powertrain that uses 1) plug-in grid power, 2) regenerative braking and 3) a multi-fuel turbine generator for range extension. The result is high a mpg equivalent, full power and low emissions which can radically transform an entire fleet of trucks.

Light and medium duty delivery trucks represents a $16 billion addressable market with companies such as UPS and FedEx. The management team has experience from top tech companies such as Tesla, Cisco and Apple. Wrightspeed represents a patented technology which competitors cannot match.
Executive Summary

Primary Uses
• Initial introduction to investors (may accompany introductory email)
• Prepares investors for meeting

Best Practices
• Text derived from your presentation
• Drill down in key areas, but be concise
• Highlight external validation
• Less than 5 pages
• Use as tool to sell the team

Supporting Materials
• Business plan, sales pipeline, IP roadmap, competitive landscape, etc.
• Make available only as appropriate (avoid material overload)
Executive Summary Outline

Definition
• 1-3 page text document which includes all the elements of a business plan

Outline
• Business Definition/Company Purpose
• Business/Technology Problem
• Company/Product Solution
• Market Trends/Size /Growth
• Competitive Assessment/Point-of-Difference
• Product/Technology/IP
• Sales/Distribution
• Team/BOD
• Financials
Business Plan Outline

Definition: 6-10 page document before appendices

Outline

• Executive Summary (1-3 pages)
• Business Overview and Strategy (1 page)
• Technology and Product (1-2 pages)
• Market and Competition (1 page)
• Management and Board (1-2 pages)
• Financial Summary (1 page)
Due Diligence

- Full management resumes
- Annual Financial Projections
- Product Information
- Market Studies
PART III

Financial Modeling

Summary
Financial Modeling

- It is a forecasting, not a budgeting, tool
- Work on the financial model together with the presentation and executive summary
- Do not provide more detail than the plan
- Use sensitivity analysis, but present the “expected case”
- Refer to assumptions throughout the plan
- Check for mistakes and “reasonableness”
- Get help
Financial Projections

- Create a revenue model
- Plan New Hires
- Estimate any Significant One-Time Costs
- Use only annual income statement and balance sheet
- Prepare monthly or quarterly cash flow forecast until breakeven
- Don’t sweat the details
Revenue Model

- Build a specific revenue model that mirrors your industry
- Compare with industry standards, highlight any differences
- Prepare the model from the “bottoms up”
- Do not over estimate first year revenue
- Do make a 5 year forecast
- Know the way revenue is recorded for your industry
Headcount

- 80% of all early year expenses are headcount related
- Make sure you are reasonable with salaries
- Match additions of people with company milestones
- Don’t forget taxes, benefits and recruiting expenses
- Build a sales commission model, if necessary
- Index salaries to inflation and add bonuses
Other Expenses

- Don’t sweat the other expenses
- Make sure rent increases as needed
- Watch consulting and professional services
- Begin taxes at the appropriate time
Balance Sheet

- Do create a balance sheet
- Use industry standards for AR and AP assumptions (typically 60 days and 30 days)
- Include financing assumptions on your balance sheet
- Make sure it balances (the balancing item is cash)
Cash Flow Statements

- A Flow of Funds statement is typical and easiest
- Use the Receipts and Disbursements statement if you are brave
- Cash flow statements are derived from the income statement and balance sheet
- Do not make changes on the cash flow statement
- Show monthly or quarterly cash flows until breakeven in the appendix or as backup slide
Charts and Tables

- In the presentation or business plan, use charts and tables to highlight the following:
  - Revenue (esp. as compared to competitors)
  - Sales and distribution model

- Five year annual summary

- Other charts and graphs can show key events to next funding round, cash flow breakeven or the cash flow cycle
Summary

- Create a great demo and presentation
- Use the executive summary to market your company
- Make the financial projections work with the assumptions in your pitch
- Practice your pitch with an experienced audience
- Keep revising your plan and projections as you grow
- Good luck
### Appendix A: Tools and knowledge resources - continued

<table>
<thead>
<tr>
<th>Resource</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Dbriefs webcasts:</strong></td>
<td>Timely, interactive web based presentations covering a wide range of topics of interest to financial professionals. Accounting-related Dbriefs, conducted at least twice a quarter, cover each EITF meeting and recent accounting developments. Special editions of Dbriefs are produced when significant accounting events occur (e.g., when the FASB issues a major exposure draft or final standard). Attendees of accounting-series Dbriefs are eligible for continuing professional education credits. To sign up for a free Dbriefs subscription, go to <a href="https://deloitte.zettaneer.com/Subscriptions/">https://deloitte.zettaneer.com/Subscriptions/</a> and select the “Audit &amp; Enterprise Risk Services” or “Tax” areas of interest.</td>
</tr>
<tr>
<td><strong>TMT Predictions 2012:</strong></td>
<td>This annual publication presents Deloitte’s view of the major trends likely to have a significant medium- to long-term impact on companies across TMT. The goal of Predictions is to catalyze discussions around important topics that may require organizations to respond. We provide a view on what we think will happen, what will occur as a consequence, and what the implications are for various types of companies. Over the last decade, the TMT sector - and its impact on how we work, live, and are entertained - has changed markedly. One key trend over the last ten years has been convergence: the technology, media, and telecom sectors are more interconnected and interdependent than ever before.</td>
</tr>
<tr>
<td><strong>Strategies for Going Public Third Edition:</strong></td>
<td>This publication provides information to assist companies through the initial public offering (IPO) process by providing practical, working knowledge of the stages for going public in the U.S. Broad in scope, it addresses both pre- and post-IPO considerations, so companies can remain well informed and prepared at every stage. Along with key information on the requirements and regulations of a successful offering, the publication also includes helpful tools, such as a timetable for going public, a sample due diligence checklist, and a discussion of the different securities exchange listing requirements.</td>

<td><strong>Perspectives – for mid-market and privately held companies:</strong></td>
<td>Published by the Deloitte Growth Enterprise Services (DGES) group, this bi-monthly newsletter is distributed to nearly 60,000 DGES clients, recent Private Company Dbriefs attendees, and participants in our semiannual Private Perspectives interactive events. Each newsletter features articles of interest to mid-market and private company executives provided by Deloitte specialists from audit and enterprise risk, consulting, tax, and financial advisory services – Deloitte’s multidisciplinary resources.</td>

**Important notice**

This document has been prepared by Deloitte (as defined below) for the sole purpose of providing a proposal to the parties to whom it is addressed in order that they may evaluate the capabilities of Deloitte to supply the proposed services.

The information contained in this document has been compiled by Deloitte and includes material which may have been obtained from information provided by various sources and discussions with management but has not been verified or audited. This document also contains confidential material proprietary to Deloitte. Except in the general context of evaluating our capabilities, no reliance may be placed for any purposes whatsoever on the contents of this document or on its completeness. No representation or warranty, express or implied, is given and no responsibility or liability is or will be accepted by or on behalf of Deloitte or by any of its partners, members, employees, agents, or any other person as to the accuracy, completeness, or correctness of the information contained in this document or any other oral information made available and any such liability is expressly disclaimed.

This document and its contents are confidential and may not be reproduced, redistributed, or passed on, directly or indirectly, to any other person in whole or in part without our prior written consent.

This document is not an offer and is not intended to be contractually binding. Should this proposal be acceptable to you, and following the conclusion of our internal acceptance procedures, we would be pleased to discuss terms and conditions with you prior to our appointment.

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited, a UK private company limited by guarantee, and its network of member firms, each of which is a legally separate and independent entity. Please see [www.deloitte.com/about](http://www.deloitte.com/about) for a detailed description of the legal structure of Deloitte Touche Tohmatsu Limited and its member firms. Please see [www.deloitte.com/us/about](http://www.deloitte.com/us/about) for a detailed description of the legal structure of Deloitte LLP and its subsidiaries.
