**Assumed Tax Rates**
- 21% corporate
- 20% capital gain

**Point:** Single Layer of tax is better – LLC’s, S Corporations
More reasons to care about tax

- **Section 1202 – Qualified Small Business (benefit for C Corporations)**
  - 100% exclusion from capital gains
    - 5 year minimum holding period
    - Excluded businesses: professional service businesses; real estate companies; financial services businesses
    - Maximum: $10 million exclusion per shareholder

- Tax-Free Mergers (benefit for corporations)
- “Partner” implications (issue for limited liability companies – benefit for corporations)
  - Self-employment taxes (2.9% of wages)
  - 1099’s and estimated payments
S Corporations

- **Benefits**
  - Simplicity
  - Pass-through treatment

- **Down-side**
  - Single class of stock (other than voting)
  - Limitation on number of shareholders – 100
  - Only individual and certain non-profit corporation shareholders
  - Only citizens or residents of the United States may be shareholders
Other Considerations in Deciding Entity

- Investor Favorable (C-Corporations)
- IPO Favorable (C-Corporations)
- Ease of use (e.g., option pools) (corporations)
- Relative ease of switching from LLC to C-Corporations

Bottom Line of Entity Choice

- No simple answer
- “Life-style company” or significant dividends/distributions—consider S Corporation or LLC
- Venture-capital oriented
  - Lean toward a C Corporation
- If model is build/sell after 5 years, consider C Corp
- Easier to go from LLC to C Corp than reverse
Benefit Corporations

- For-profit legal entity that has for its purpose a “general public benefit.”

- Benefit corporation statutes impose affirmative duties on directors to consider the interests of several stakeholders. The statutes also restrict standing to sue for breach of these duties.
Benefit Corporations: How It Works (in PA)

• The articles of association must be drafted (or amended) to state that the benefit corporation has for its purpose a “general public benefit” in addition to any specific public benefit.
• Board of Directors must include a Benefit Director.
• The company must submit an annual benefit report.

Advantages: offer legal protection to directors; show a strong commitment to a social purpose
Disadvantages: additional considerations and reporting requirements; no tax incentives
B Corps

• Certification for for-profit enterprises that meet certain social/environmental performance, accountability and transparency standards.
• Established companies take an assessment and must attain a score of 80 points out of 200 to maintain their status.
• Annual certification fees range from $500-$25,000.

Advantages: shows strong commitment to social purpose; access to B Corp community; potentially more sustainably profitable.

Disadvantages: no tax incentives; burdensome requirements
