Leveraging Partnerships with FDA during and after COVID-19: Advice for Startups

Courtney Williamson, PhD
CEO, AbiliLife

Elora Gupta, PhD
Advisor, Swartz Center for Entrepreneurship
We Became Involved With Regulatory & Reimbursement Out Of Necessity

- **Elora’s history**
  - Drug and Device industry, Global Regulatory Strategy
  - Notables: Eliquis (drug ~10B annual sales), Abilify MyCite (first drug with sensor with FDA Press Release)
  - Translating industry learnings to CMU medical product startups

- **Courtney’s history**
  - Personal need
  - Novel technology
  - CMU alum

- **How we met**
  - Through Olympus and a personal connection (Elora's daughter)
  - Working together since 2016
  - Joint Swartz presentations since 2017
Our Thought Process Has Evolved

● Regulatory and Reimbursement
  ○ Old way: Regulatory - THEN - Reimbursement
  ○ New way: Regulatory - AND - Reimbursement

● Understanding the startup world (navigate it in the least burdensome manner)
  ○ Start with drafting differentiation strategy and product claims
  ○ Understand FDA + CMS requirements to get desired claims

● Engage with the Agencies to align on development plan to get the right evidence at the right time to get desired claims
FDA and CMS and you

**FDA quote:** ‘Open lines of communication between FDA and industry will provide regulatory outcomes that best serve patients’

**CMS quote:** CMS maintains open channels of communication between outside entities and CMS components charged with making coverage, coding, and payment decisions.
We've Covered Regulatory and Reimbursement 101 For You 2017-2019. 2020 was canceled.
What Is Regulated?

Jeopardy ≠ Medical condition
What is the FDA? What is CMS?

Mission is to Protect & Promote US health

Mission to strengthen and modernize US healthcare system, to provide access to high quality care and improved health at lower costs.
Due to the pandemic:

FDA has created several initiatives, regulations and engagement strategies for COVID products that will likely extend to other novel products.

CMS has adopted COVID policies and guidelines that creates opportunities for novel technologies.
A well-differentiated product is based on its **claims**

- Science
- Technology
- Innovation
- IP
- Unmet need, User voice
- Safety
- Effectiveness
- Quality
- Reasonable
- Necessary
- Value-added

Differentiated Product

Clinically meaningful
Patient-centered care
Cost-effective
It's about the **evidence** to support claims and obtaining that is an efficient manner.

- **EVIDENCE** (specially for innovative devices)
  - Nonclinical
  - Clinical

**FDA**

Effectiveness, Safety, Quality
Benefit > Risk

**CMS**

Coding Coverage Payment
What Do The FDA and CMS Have In Common? YOU!!

“........Ideally, Sponsors and FDA work collaboratively ..... having a shared public health goal of early availability of safe, effective, and high-quality (products) to the American public.....“

-Food and Drug Administration
Could My Product Be Regulated?

Interactive Workshop
Calculating Probability Of Success
PDRRS: Probability of Development, Regulatory, Reimbursement Success

1. Determine Indication for Use
   - Diagnose
   - Cure
   - Mitigate
   - Treat
   - Prevent
   - Affect body structure/function

2a. Your product is a medical device
2b. Is there an existing code? If so, for what amount?

3a. What testing do you need? Bench, Animal, Clinical, Quality testing
3b. Engage with PDAC

4a. Provide evidence for performance safety, effectiveness, quality
   Benefit>Risk
4b. Medically necessity & value-based

Market
Entrepreneur Action Items

- Identify your patient demographic
- Work through the decision tree
- Contact Division of Industry and Consumer Education (DICE)
- Find an existing CMS code (if applicable)
