

RIDICULOUS CO.

MECHANICAL ENGINEERING INTERN (REMOTE)

03/30/21

SEATTLE, WA

DESCRIPTION

Ridiculous strives to be the world's next great vision-centric company, striving for a future to delight the next generation of consumers with products few could have imagined. We set ambitious goals and are looking for people who can help us reach them. Our dev team is looking for an undergraduate intern to help us realize one of our promising products.

As a Mechanical Engineering Intern, you will have the critical role of defining multiple key-aspects of our product. You will lead mechanical development efforts, perform independent research into potential business decisions, and contribute to the future product vision. This role is inherently cross-functional and you will work closely with the founding team. This is an opportunity that will prepare you to be a professional beyond engineering and give you a taste for entrepreneurial ventures.
