Carnegie Mellon University

Any organization. Any goal.
One trusted partner.

Your company is built for success but in a world of constant change, even the best teams need an edge. Simply keeping up is not enough. That's where Tepper Executive Education comes in. We are the trusted partner to take your business to new heights, equipping your leaders with the skills, strategies, and confidence to drive real impact. Our hands-on, results-driven programs don't just teach, they energize, inspire, and transform. With cutting-edge research and faculty expertise applied to real-world challenges, we help you shape the future of your organization, not just react to it. Let's move forward together.

At Carnegie Mellon, we don't imagine the future we create it.

With Tepper Executive Education, you have the unmatched experience and standing of one of the world's foremost research universities behind you. With deep roots in AI, analytics, and technology, Carnegie Mellon University is at the epicenter of results-driven problem solving for corporations of all sizes. Our depth and breadth of expertise translate into tangible results for your company and your leaders. Here, we work together to sharpen leadership, fuel innovation, and drive measurable impact.

What makes us different?

DATA INFORMED. HUMAN DRIVEN.

We believe that great business decisions balance data-centered insights with human-driven leadership. That's why our programs blend cutting-edge research with real-world application, ensuring leaders don't just understand theory—they are prepared to put it into action. Our approach is hands-on, dynamic, and results-driven, equipping participants to leverage data, technology, and collaboration to drive meaningful change.

Core knowledge areas

AI, ANALYTICS & TECHNOLOGY

Leverage the latest in AI/ML, cybersecurity, automation, digital transformation, and relevant business applications to enhance data-informed decision making and stay competitive and prepared for the future of business.

LEADERSHIP, TEAMS & COMMUNICATIONS

Empower leaders and teams to create an inclusive environment, drive strategic initiatives, communicate effectively, and foster a collaborative organizational culture to enhance knowledge transfer and organizational learning.

STRATEGY, RISK & FINANCE

Amplify knowledge and enterprise-wide impact. Develop effective business strategies, sharpen financial leadership, and mitigate risks to drive data-informed and human-driven decisions, and sustainable organizational growth.

INNOVATION & ENTREPRENEURSHIP

Drive economic growth and foster competitiveness with innovation and an entrepreneurial mindset. Inspire leaders and organizations to explore new opportunities, creatively approach dynamic business challenges, and rapidly respond to changing global demands.

Ways to partner with us

OUR PROGRAMMING FLEXES TO FIT YOUR NEEDS.

We offer flexible partnership opportunities to help you develop your talent in the way that best aligns with your organization's needs. Our solutions are tailored to your unique situation as well as the number of team members you'd like to include.

Custom Programming

To support teams or business units in addressing business goals or challenges unique to your organization.

Group Pricing

To build skill among a team of leaders, enroll a group in a single program and receive a discounted program fee.

Annual Program Access

To support your organization's talent development needs with prepaid credit applicable across all Tepper Executive Education open enrollment programs.

Certificate Candidates

To recognize and retain high-potential talent by sponsoring candidates for the Carnegie Mellon Certificate in Executive Leadership or the Certificate in Executive Leadership + AI.
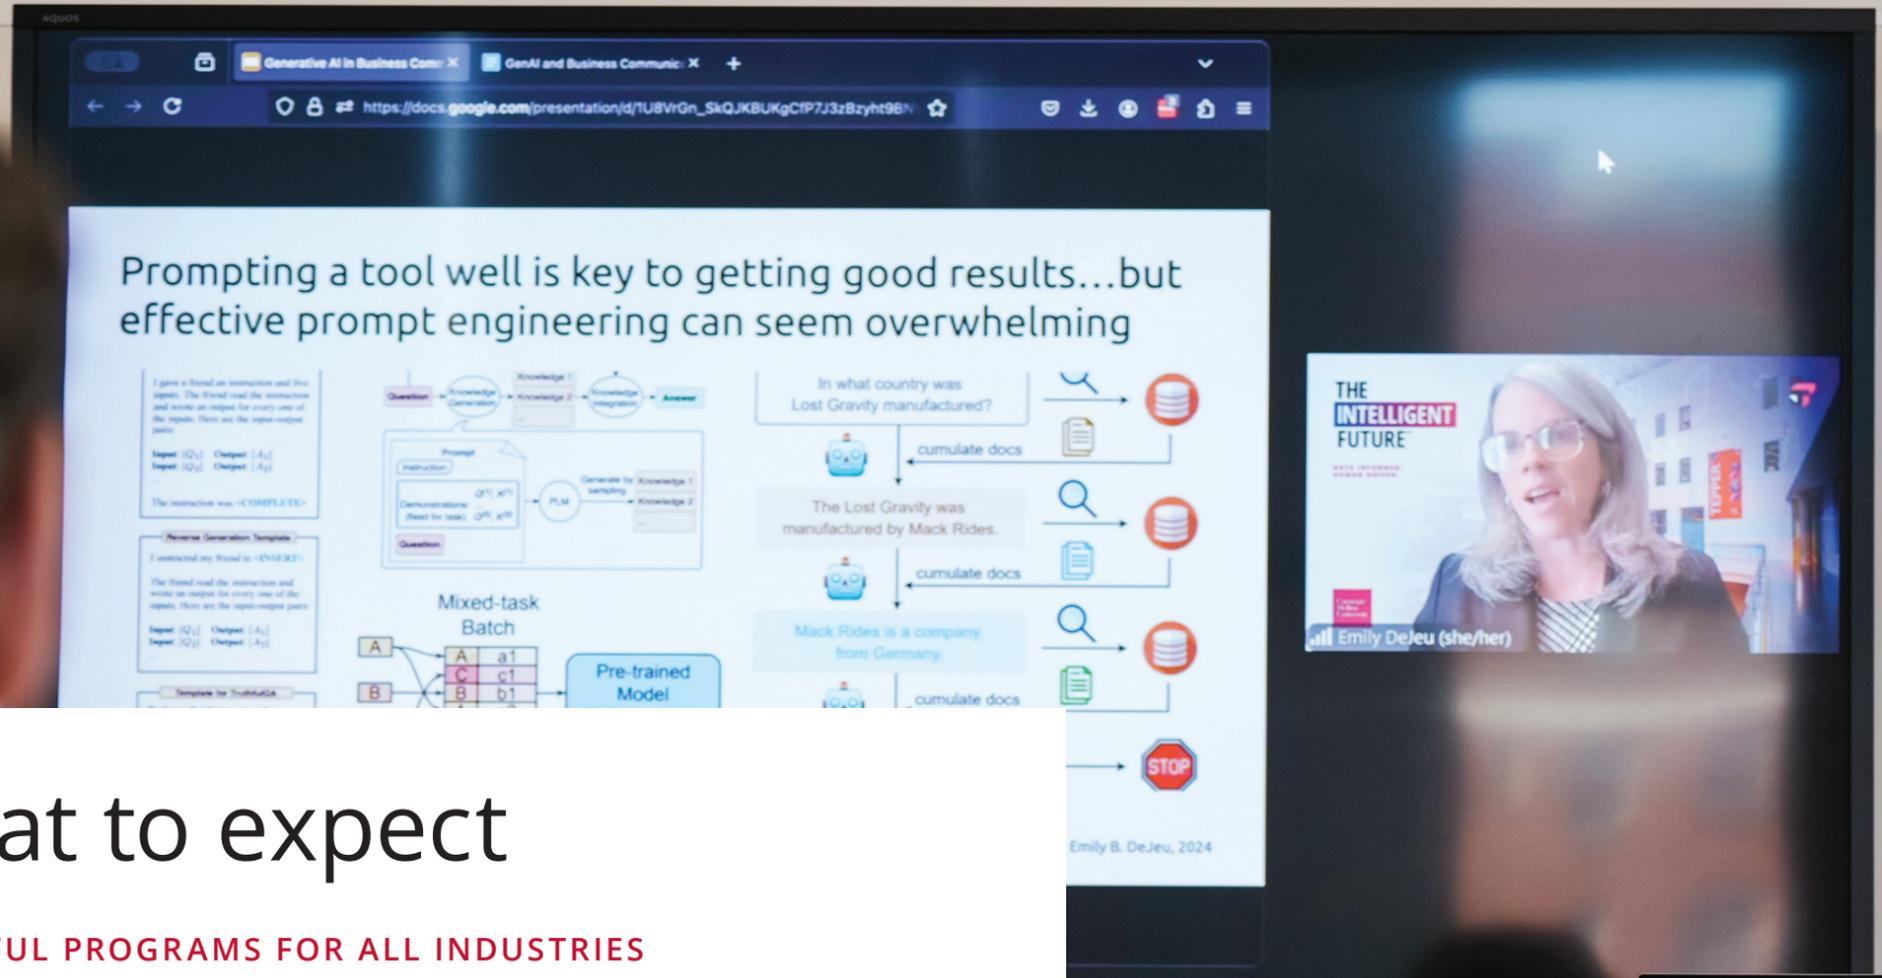

What to expect

IMPACTFUL PROGRAMS FOR ALL INDUSTRIES AND LEVEL OF SENIORITY.

Tepper Executive Education programs are designed to elevate leaders at every stage – from emerging talent to the C-suite. Learning can take place on our campus in Pittsburgh, at your location, online, or a hybrid of these. And while every program is unique, they are all designed to be highly accessible, engaging, and impactful.

| EMERGING LEADERS | ESTABLISHED LEADERS | SENIOR LEADERS | C-SUITE |

"AEO has partnered with the Tepper School of Business since 2019 to create custom development engagements for our Senior Leadership. Tepper has been an amazing partner, working with us to find the right solution for business needs. CMU's wide range of faculty provide us with an outstanding selection of experts and thought leaders from a variety of fields that have helped us to skill our leaders and to adapt to the changing landscape of technology, leadership and global economics."

— American Eagle Outfitters

Carnegie Mellon Certificate in Executive Leadership + AI

The Carnegie Mellon University Certificate in Executive Leadership + AI demonstrates dedication to maintaining cutting-edge skills, from a recognized top-tier university. With an available AI track, the Certificate program allows candidates to create their own path to success, merging unique career and personal goals.

FLEXIBLE
Programs are offered online, in person, and in a hybrid format.

CUSTOMIZED
Choose any combination of executive programs to earn a minimum of 10 Tepper Education Units (TEUs) within 3 years.

TRACK OPTIONS
Add a specialization in AI when 5 TEUs are completed in AI programs.

"

Three words best capture my experience: **Innovative, Empowering,** and **Transformative.** The program significantly broadened my perspective and provided practical tools and frameworks to enhance my leadership effectiveness. Using the learning tools introduced in the course for visualization and storytelling will greatly enhance my ability to communicate innovative ideas clearly and further accelerate my capacity to rapidly prototype practical solutions."

— Director of Community Engagement,
    Newborn Medicine Division
    UPMC Children's Hospital
