WILL YOU BE ABLE TO HARNESS THIS INFORMATION TO MAKE SMART, INSIGHTFUL BUSINESS DECISIONS? THE INTELLIGENT FUTURE — INCLUSIVE, CREATIVE, PURPOSEFUL — WON'T JUST HAPPEN. THOUGHTFUL, INNOVATIVE PROBLEM-SOLVERS NEED TO LEAD THE WAY.

A Tepper School MBA will prepare you to be such a leader — analytical and imaginative, forward-looking and flexible, collaborative and self-aware. You'll graduate ready to take on complex problems and create better solutions.

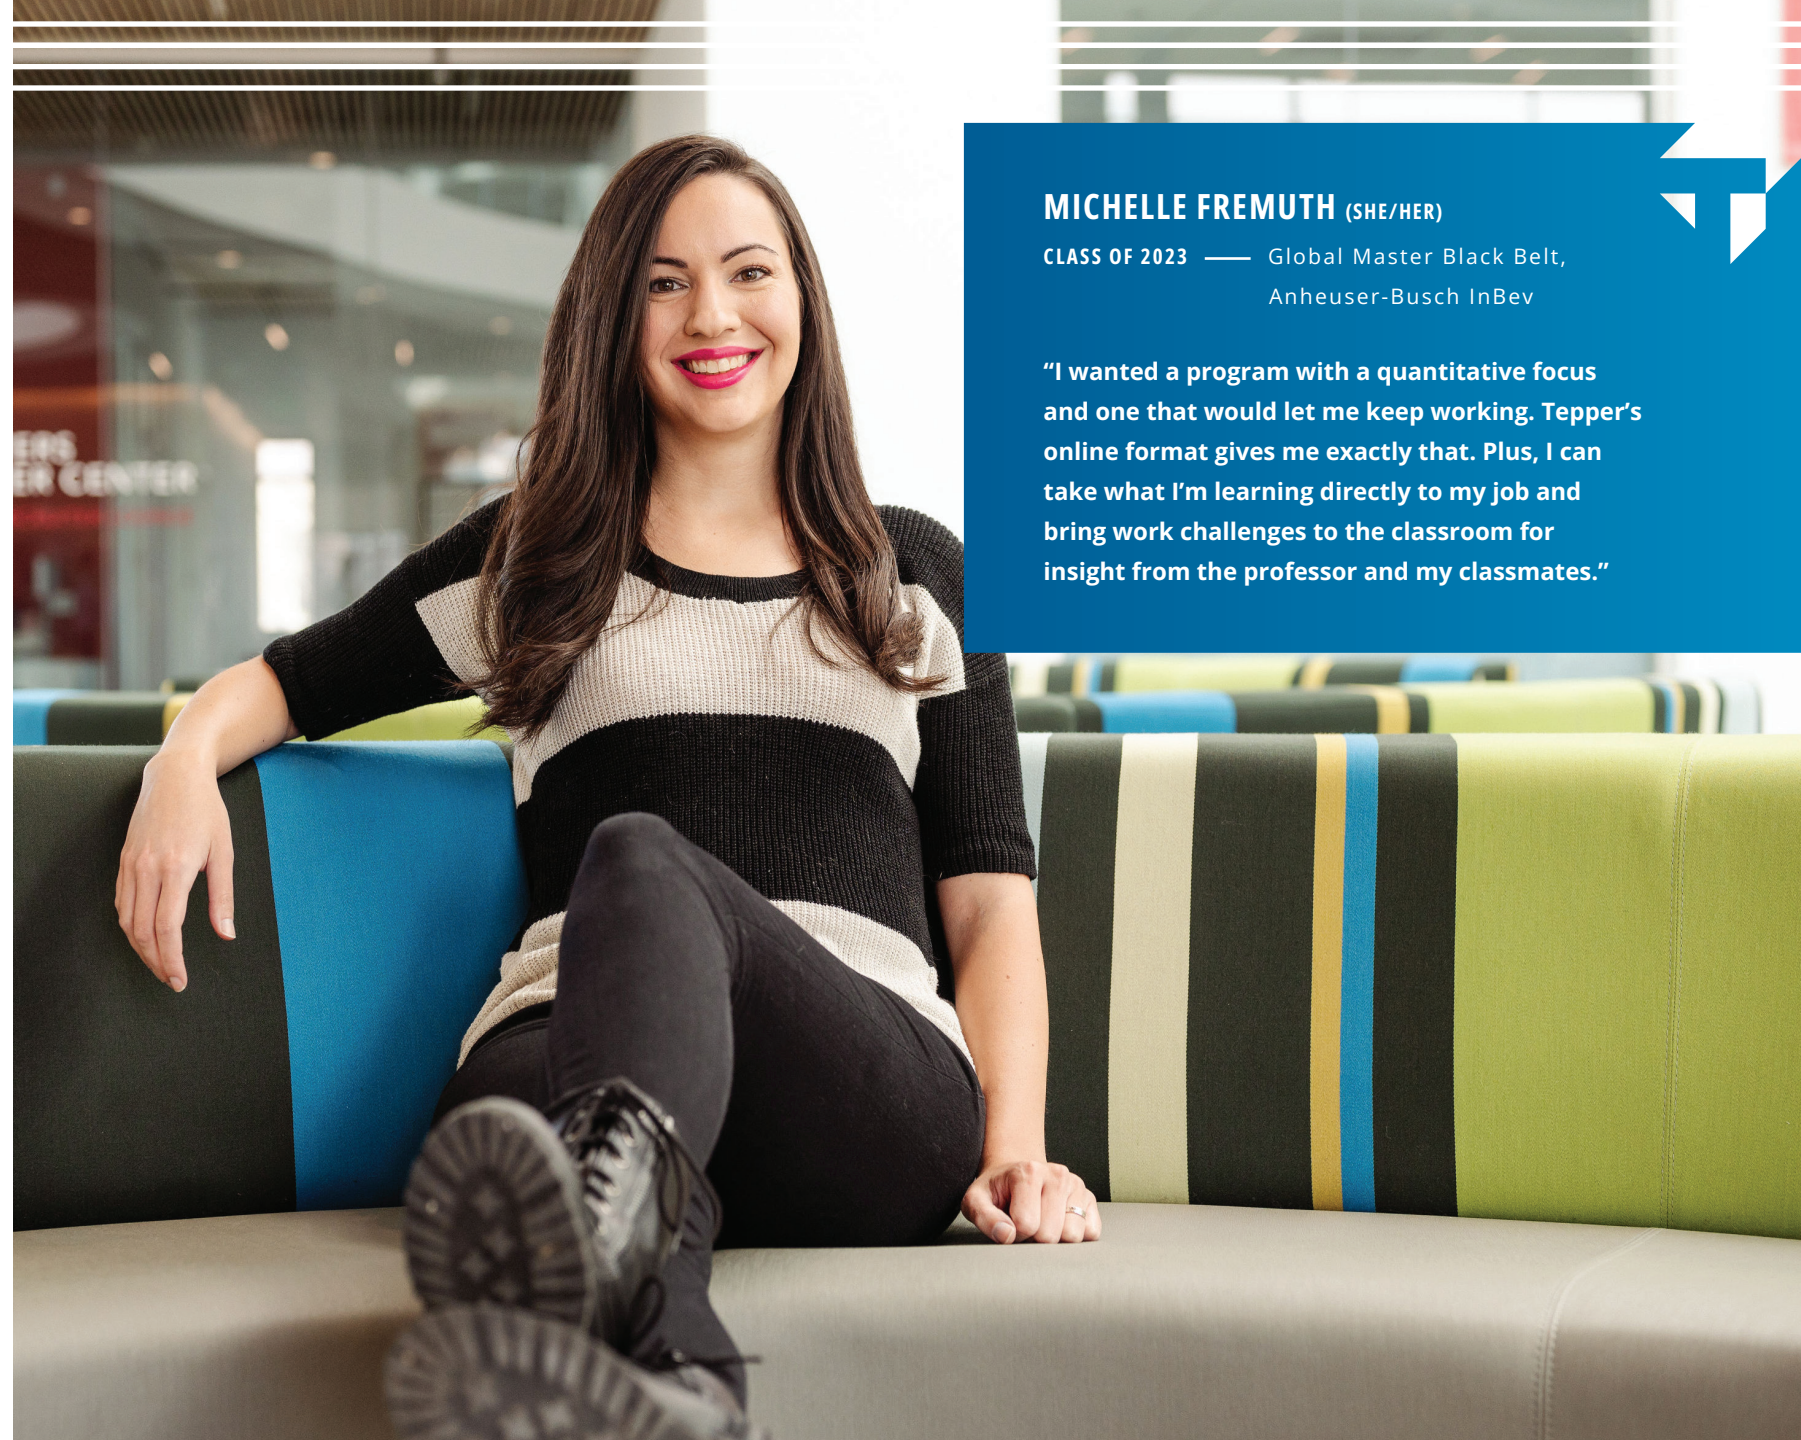

ADVANCE YOUR FUTURE WHILE LIVING YOUR LIFE

Get the MBA that's ranked #1 Best Online MBA Program in the U.S. (*Financial Times*, 2023) without putting your life on hold.

At the Tepper School of Business, we understand that when you invest time and resources into an MBA program, you expect internationally recognized faculty, an esteemed analytics-based curriculum, lifelong alumni connections, and enduring value from your degree.

We offer one future-focused MBA curriculum taught by one set of highly qualified professors. Plus, flexibility on how to pursue it.

When you choose our Online Hybrid MBA program, you can continue to advance your career while living in your city. Live your life while earning the degree that opens doors. Plus, you'll regularly join your classmates for Access Weekends that let you connect and participate in a deeper way.

MICHELLE FREMUTH (SHE/HER)

CLASS OF 2023 — Global Master Black Belt,
Anheuser-Busch InBev

"I wanted a program with a quantitative focus and one that would let me keep working. Tepper's online format gives me exactly that. Plus, I can take what I'm learning directly to my job and bring work challenges to the classroom for insight from the professor and my classmates."

TAILOR YOUR MBA TO FIT YOUR BUSY LIFE

Our Online Hybrid MBA is designed to suit your career, your life stage, and your schedule.

All students take live online classes two evenings a week, with offline content to complete at your own pace. You'll come to campus or connect virtually several times a year for Access Weekends featuring speakers, workshops, industry immersions, hackathons, case competitions, networking and club events, and more. While here, your home base will be the Tepper Quad, a lively hub of innovation at the heart of Carnegie Mellon University in Pittsburgh.

MAKE YOUR MBA WORK FOR YOU WITH BUILT-IN FLEXIBILITY.

- Weekly online classes let you learn from top faculty wherever you are. Traveling for work? Class can come with you.
- Access Weekends give you the in-person experience critical to an MBA without the need to relocate or stop working.
- Customize your curriculum with more than 40 online electives. If you live in Pittsburgh, you can even take some on campus.
- Want to speed up or slow down your timeline to graduation? Once you complete your core classes you can adjust your electives to finish on the timeline that works best for you.
- If you've taken undergrad business courses, you might qualify for our Accelerated format.

AMARACHI UDE

(SHE/HER)

“With an online program, you want to feel you’re part of something, not out there on your own. During the application process, Tepper was so responsive and accommodating. It felt like people really cared about me personally, and that has continued during my time here.

Even the alumni are accessible — I had a great interview with someone at L’Oréal. It was for a class project but for me, it was much more than that. She’s in the field I’m interested in and it showed me how all the parts of my experience could be put to work.”

CLASS OF 2024 — Industrial Engineer,
FedEx Ground

When Amarachi Ude started researching MBA programs in 2020, she wanted one that was designed to be online. Tepper's ranking as a top online program got her attention. Her undergrad bioengineering degree and full-time lab work made Carnegie Mellon a natural fit as she seeks to transition to the business and people side of research.

#1

BEST ONLINE MBA PROGRAM IN THE U.S.

— *FINANCIAL TIMES*, 2023

DIMITRIOS PAPAZEKOS

(HE/HIM)

“The online format lets you balance classes with your job and your family. It’s an intense program, a lot of work, but the professors are flexible and work hard to give us what we need to succeed.

Working while I’m getting my MBA has allowed me to immediately apply what I’m learning in the classroom to my job at Covestro. When I was put in charge of a new team, I used what I learned in one of my courses to help me establish great relationships and set the tone I wanted as a leader. The class provided so much useful, data-backed guidance.”

CLASS OF 2024 — Principal Process Engineer
Covestro

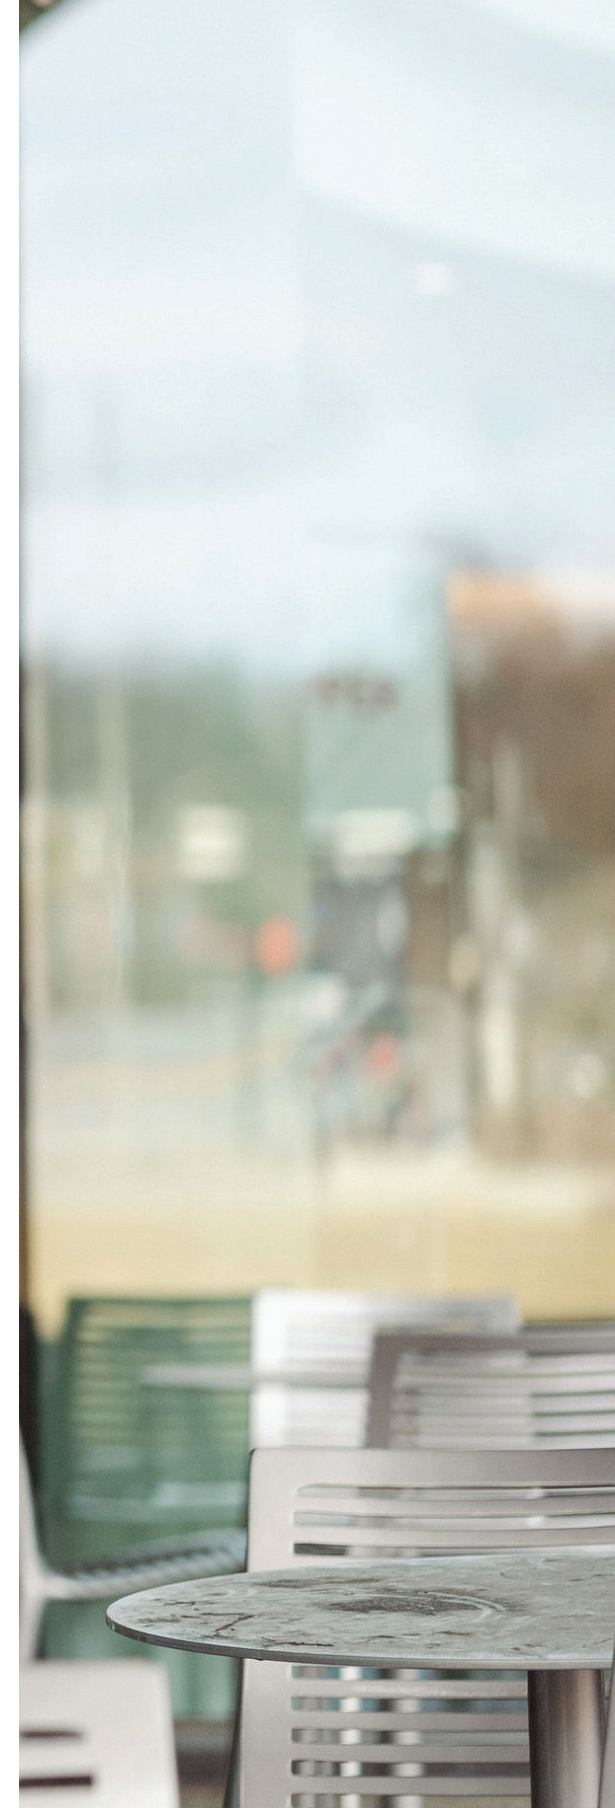

As a principal process engineer at Covestro, Dimitrios Papazekos wanted to broaden his expertise beyond the technical side. He credits the Tepper School for strengthening his leadership acumen and giving him a broader sense of the strategic thinking and financial considerations that guide solid decision-making.

#2

OPERATIONS MANAGEMENT

— *U.S. NEWS & WORLD REPORT, 2023–2024*

THE SCIENCE OF MANAGEMENT + THE ART OF LEADERSHIP

At the Tepper School, you'll acquire the analytic skills to develop inventive solutions and the leadership expertise to inspire others.

Our focus on the science of management and the art of leadership forms the core of a Tepper School MBA that will set you apart from the competition.

Data is prolific, so companies need forward-thinking people who can use this information to make better, more intelligent business decisions: What does this data tell us? How can we use it to guide strategic planning? Carnegie Mellon is the birthplace of the data-informed approach to business.

After unlocking the answers data provides, you'll need to articulate your ideas and inspire your team. Good leadership comes from using effective techniques to communicate and motivate — and you'll learn those techniques here, in and out of the classroom. Beyond your coursework, we provide one-on-one leadership coaching, a rarity among top-20 business schools.

MELODY HU (SHE/HER)

CLASS OF 2024 — VP, Quantitative Finance Analyst,
Bank of America Merrill Lynch

"In getting an MBA, I was looking for the analytical skills I need for my job now and the leadership skills to grow my career later. CMU has a really great combination of both."

#1

BUSINESS ANALYTICS (ONLINE MBA)

— U.S. NEWS & WORLD REPORT, 2023

TYLER CAMPBELL

(HE/HIM)

“Data analytics is integrated into so many courses in a way that really sets the Tepper School apart. At the same time, the people side, understanding how a team works, is also there. Both are critical if you hope to be an effective leader.

The faculty has been phenomenal. Of course they’re experts in their field, but it’s not just theoretical knowledge. They have practical information about career paths and the most current methods and trends.”

CLASS OF 2024 — Manager,
Supply Chain Consulting, EY

Tyler Campbell loves his consulting work and hopes an MBA will accelerate his career path. The Tepper School curriculum paired with his engineering background and on-the-job experience is likely to do just that. The online format let him keep his job while also getting married, buying a house, and adopting a dog!

ONLINE HYBRID MBA CONCENTRATIONS

GO BROAD AND GO DEEP

Our mini semester format lets you fit in more classes than a standard schedule. The core curriculum builds a solid foundation of business knowledge, then you'll customize your learning with an array of electives (15!). Finally, you'll apply what you've learned in a hands-on capstone experience.

CONCENTRATIONS

Dive deeper into a discipline you know or strike out in a new direction — or both! At least one concentration is required, but many students pursue more.

- Business Analytics
- Business Technologies
- Communications
- Entrepreneurship
- Finance
- Marketing
- Operations Management
- Organizational Behavior
- Strategy

TRACKS

Tracks — optional, and consisting of eight to ten electives plus a related capstone course — offer in-depth studies in areas of specialization.*

- Business Analytics
- Entrepreneurship

**Other tracks may be available to students who can attend some on-campus classes.*

CAPSTONE COURSES

Finish with a capstone course — an immersive, hands-on chance to apply what you've learned to real-world situations. Most students do Management Game, a computer simulation that lets teams of students act as the executive committee of a multinational manufacturing company.

MONICA BELLE (SHE/HER)

CLASS OF 2024 — Implementation Manager,
Paul H. Brookes Publishing

“I thought it might be a very competitive atmosphere, but that’s not the case. It’s collaborative, we work together. If there’s a difficulty with an assignment, we’ll get on Zoom and work through it as a group.”

JOIN A SUPPORTIVE NETWORK

Access Weekends build lasting connections.

Your studies are online, but you’ll still become part of a close-knit group. Access Weekends are immersive virtual and in-person experiences that allow you to network with your student peers and faculty, participate in career coaching, and deep-dive into industry immersions, case competitions, and more. These weekends are carefully crafted to build a real sense of community. You’ll develop friendships and make connections that will last far beyond your time here.

You can be your authentic self at the Tepper School—your unique perspective will be valued in a real and genuine way. The people you’ll meet have a depth and diversity of experience to share with you. The relationships are personal, the interest is sincere.

ACCESS WEEKENDS

- 8 In-Person, 4 Remote
- 12 Total Access Weekends Throughout the Program

SHELBY LIVENGOOD

(SHE/HER)

“Our class put together a discord server to help build community. It’s broken into channels — academic, social, professional — so we can reach out for the support we need from each other. The way we creatively figured out how to build connection in a time when that wasn’t easy gives you a sense of the supportive network you’ll find here.”

CLASS OF 2023 — Engineer and Project Manager,
Chevron

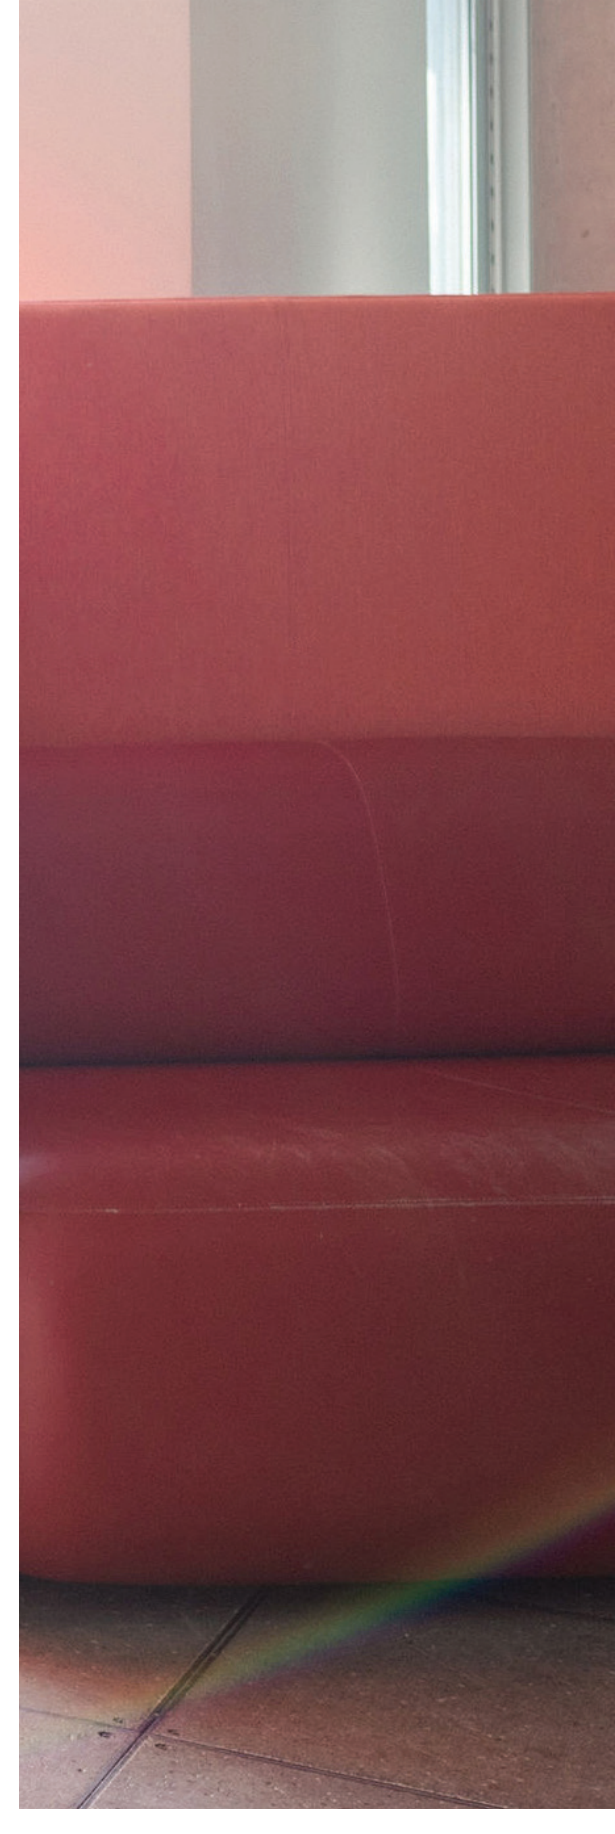

Shelby Livengood wanted to be sure that her online MBA wasn't a subpar version of a full-time degree. Carnegie Mellon fulfilled all her expectations — amazing professors, a motivated student body, accessible alumni — plus she found a sense of community far beyond what she'd imagined.

COUNTRIES WITH TEPPER SCHOOL ALUMNI

YOUR SQUAD IS DEEP

At every turn, you'll encounter someone ready to help you achieve your goals.

One-on-one leadership coaching, an ongoing relationship with your career coach, and a worldwide network of alumni, all striving to ensure your success. Plus professional clubs, recruitment events, case competitions, and peer mentorship. Whatever you need to reach your goal, you'll find it here.

ACCELERATE LEADERSHIP CENTER

Here, the Tepper School stands out. You'll get executive leadership coaching, tailored to your goals, from day one. You won't find that in most MBA programs.

MASTERS CAREER CENTER

Of course our career coaches have industry expertise, but they also have expertise about you — your strengths, your career plans — because they stay with you from the start of classes until graduation and beyond. You'll get guidance that's relevant to you and your particular situation.

ALUMNI NETWORK

Our alumni are impressive, but more importantly, they're accessible. Alumni know that every relationship matters. You can make real and meaningful connections with those who've come before you.

ANDREW WOODWARD (HE/HIM)

CLASS OF 2020 — Senior Manager, Global Lead-Operations, Supply Chain Integration — Wayfair

"The Accelerate Leadership Center is optional, but it's a fantastic resource. The opportunity to reflect on what characteristics make me an effective leader made me a better manager and even a better person. Resources like the ALC are a key part of the Tepper School experience — you get to drive the bus and choose from what's available in the way that best fits your goals."

ANDRES RODRIGUEZ (HE/HIM)

CLASS OF 2023 — General Management, Graduate Leadership
Development Program,
Thermo Fisher Scientific

“The Carnegie Mellon name goes a long way. As soon as people hear you are in the Tepper MBA program, you gain some credibility and people take you more seriously.”

HELP CREATE A BETTER FUTURE

As a Tepper School student, you can draw on the brilliant minds and depth of knowledge that power innovation across the Carnegie Mellon campus.

It's a change-the-world kind of place and you can be part of it. From computer science to design, robotics to engineering, Access Weekends speakers, site-visits, and interactive activities across campus let you experience the breadth of the Carnegie Mellon experience firsthand.

Do you dream of an entrepreneurial future? Or maybe you already have a great idea? The Swartz Center for Entrepreneurship will be your place to learn, network, and launch. Deeply collaborative and extraordinarily supportive, the center's success stories include Duolingo, Wigle Whiskey, and Fifth Season, to name just a few.

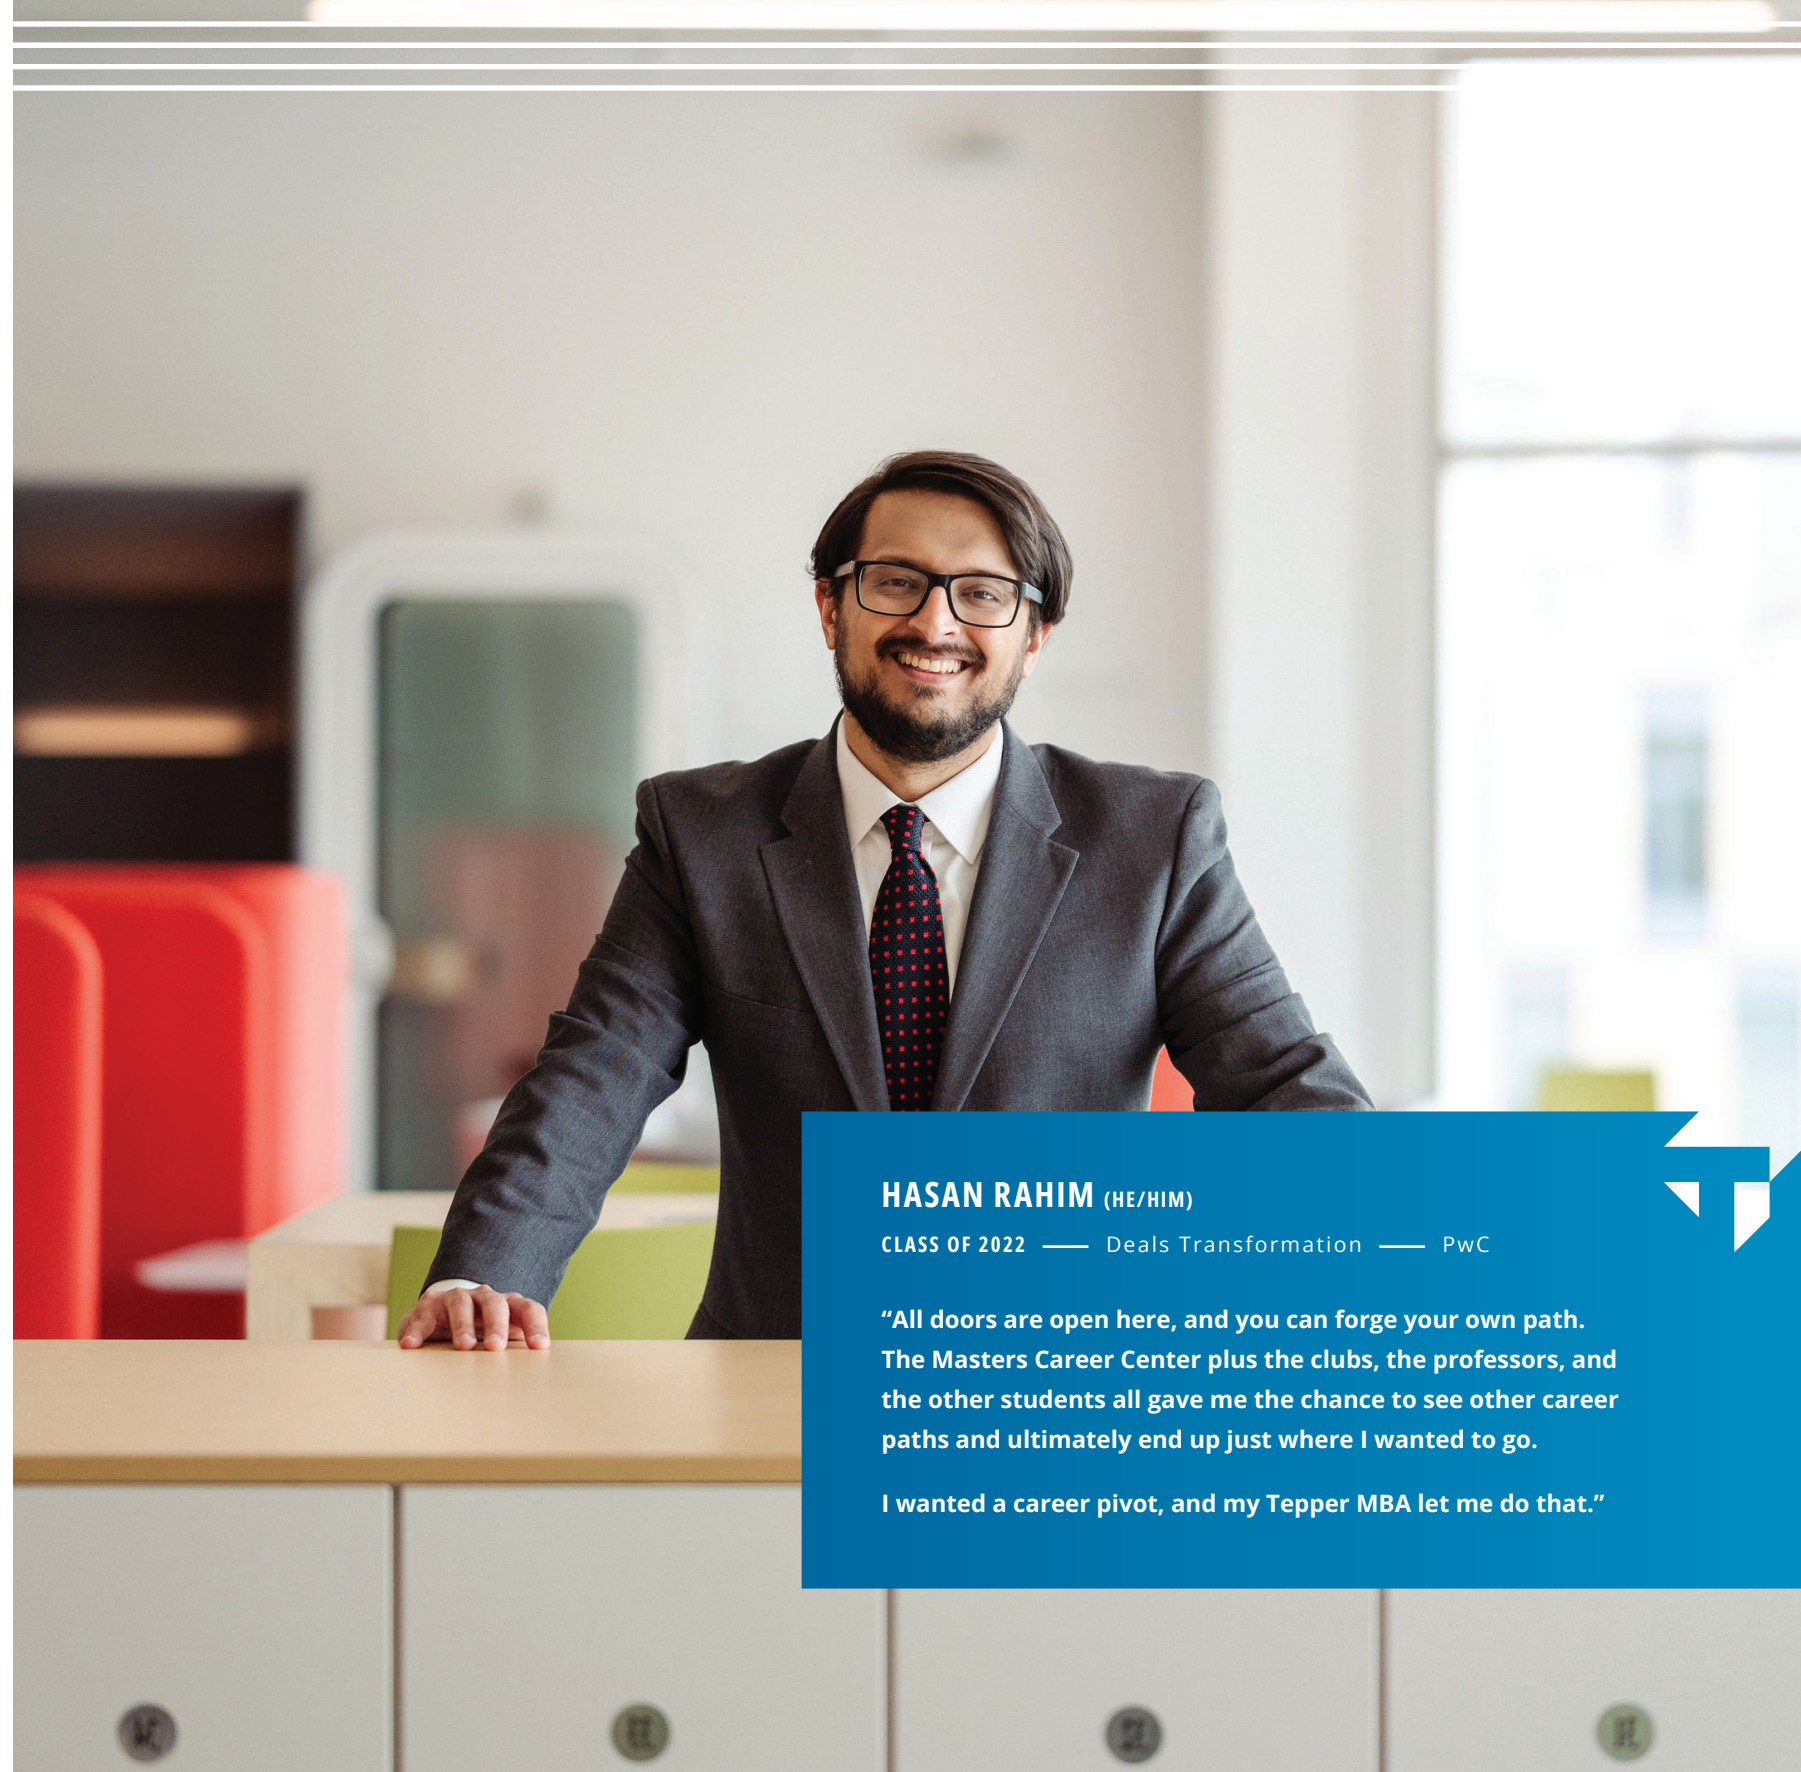

TRANSFORM YOUR CAREER

Whether you want to advance in your current field or pivot to something entirely new, a Tepper School MBA will take you there.

You'll have access to the same career resources as the full-time students, including on-campus recruiting, job postings, and internships.

The counselors at the Masters Career Center know you and they know the industries you're aiming for. Their alumni and recruiter connections and in-depth knowledge of a company culture make them an invaluable asset.

Seeking promotion in your current company or industry? Our career counselors support your career advancement in the way that is most meaningful to you.

HASAN RAHIM (HE/HIM)

CLASS OF 2022 — Deals Transformation — PwC

"All doors are open here, and you can forge your own path. The Masters Career Center plus the clubs, the professors, and the other students all gave me the chance to see other career paths and ultimately end up just where I wanted to go.

I wanted a career pivot, and my Tepper MBA let me do that."

CASEY TIMMONS

(SHE/HER)

“Every resource you could want is available. I was unexpectedly laid off while at Tepper so I contacted the Masters Career Center. It was near the end of internship recruiting, but in two days we’d cleaned up my resume, done interview prep, reviewed what was available, and applied. I ended up with a great internship in consulting.”

CLASS OF 2022 — Associate — McKinsey

The Tepper School's reputation for rigorous business analytics are what first attracted Casey Timmons to Carnegie Mellon. The online format meant she could apply what she was learning immediately, while expansive elective choices gave her the chance to explore new areas. Her explorations led to a post-graduation consultant role with McKinsey & Company.
