TEPPER STUDENTS ARE CURIOUS.

Our pioneering nature has always been part of the ethos of both Carnegie Mellon and the Tepper School of Business. We welcome the opportunity to be on the frontier, working on discoveries, problems, and ideas that transform business and society. For us, curiosity has no endpoint.
ONE DEGREE. UNLIMITED POSSIBILITIES.
Your diploma will read “Bachelor of Science in Business Administration.” The name Tepper will convey a much bigger story.

Your Tepper degree will say that you’re uniquely prepared to apply your skills and training to your passion. In addition to our business core classes, you will pick a business concentration that will allow you to gain depth in a specific business area.

Your required minor will expand the depth and breadth of your understanding through other renowned CMU schools and colleges — whether it’s fine arts, computer science, engineering, psychology, or any CMU program.

You’ll also have the option of pursuing an additional major and adding a global perspective to your education through a wide range of opportunities to study abroad.

“The experience is incredible. You work with people from every culture and background, and you collaborate with people from other colleges on campus.”

**Makayla Filiere**
Business Administration, Class of 2020
Additional major in Statistics

Study abroad in Australia

---

**Globalize Your Learning**

In today’s global marketplace, immersion in a different culture provides a powerful perspective that complements your skills and broadens your options. You’ll have abundant opportunities to travel abroad and experience the way business is done in a variety of economies and cultures.
ONE-ON-ONE WITH WORLD-CLASS FACULTY.

At the Tepper School, you’ll learn from award-winning, nationally recognized industry experts. But just as important as what they bring to the classroom is what they offer outside of it.

With one of the lowest student-to-faculty ratios of the top-10 undergraduate business programs, Tepper faculty enjoy having the time to take a more personal interest in your success. Here your professors will know you by name, and will share expertise, opportunities, and guidance throughout your Tepper years.

Beyond the business school, Tepper faculty are involved in interdisciplinary research projects across the university, gaining — and sharing — a broader perspective on the opportunities and emerging avenues available for business students to explore.

Burton Hollifield
Head, Undergraduate Business Administration Program
PNC Professor of Finance
Professor of Financial Economics

Tepper UBA recruits energetic, ambitious, and intellectually curious students. We provide students a place to develop the analytical, technical, and behavioral skills to implement creative solutions to important global problems.”

LEARN MORE ABOUT THE CURRICULUM
The faculty is one of the best parts of Tepper. I’ve gotten close to my professors. It’s really changed the way I interact with teachers.”

Anurati Sodani
Business Administration, Class of 2020
Additional major in Human-Computer Interaction
There’s no such thing as an average day.
Tepper students take full advantage of life at Carnegie Mellon. You will meet classmates studying all kinds of subjects from all over the world as you pursue your business degree. Your friendships will form in your residence hall, student clubs, intramural sport courts, dining halls, and beyond. By the time you graduate, you will know engineers, artists, performers, historians, computer scientists, musicians, statisticians, scientists, and mathematicians, and you will all share the unique bond of being a CMU student.

This is what makes the Tepper experience special — you will have unique interactions every day with friends, classmates, faculty, and advisers. You get to decide for yourself what opportunities you want as part of your Tepper experience. It’s all waiting for you at CMU.
A DYNAMIC, COLLABORATIVE COMMUNITY.

“...
on the best things about the Tepper experience was the team mindset and the collaborative setting. I had the opportunity to work with students from Electrical and Computer Engineering, Drama, and Chemical Engineering.”

Sam Benger
Business Administration, Class of 2018
Minor in Global Systems and Management
Business Analyst: Strategy and Operations, Deloitte
From business to theater to engineering, AI, and robotics, Carnegie Mellon stands alone as an unmatched confluence of talent and technology. At the Tepper School, you’ll be in heart of it all.

The new Tepper Quad — located in the center of the CMU campus — will connect the business school with all of CMU’s colleges, schools, and students. Here, you’ll work in collaborative learning spaces, dine in CMU’s largest facility, work out in a state-of-the-art fitness center, and take in lectures and events at a new 600-seat auditorium. And you’ll do it all with talented students from diverse majors, backgrounds, and life experiences.

You’ll also have abundant opportunities to collaborate with students from across the university in business- and industry-focused clubs, on service trips, and through a myriad of campus organizations and intramurals.

In meeting and working with students from different disciplines, you’ll discover a prevailing spirit of innovation — one that is amplified by the continuous intersections of talent that happen every day and everywhere across campus.
Tepper undergraduate business administration students are likely to have a job offer in hand before they have a diploma in hand — and for good reason. By the time they graduate, our students have demonstrated their unmatched analytical leadership and problem-solving skills at internships with some of the world’s leading technology, financial, consulting, pharmaceutical, consumer packaged goods, and retail companies.

It’s also because Tepper students have access to a powerful network of resources that open doors to career opportunities around the world.

In the Career and Professional Development Center, you’ll work with experienced professionals to explore potential job and internship options, prepare for career events, and develop strategies to reach your goal.

And wherever in the world your path leads, our influential, tight-knit alumni network is available to share expertise, offer guidance, and make the introductions and connections you need to launch your career.

Would you rather... start a company than join one?

Swartz Center for Entrepreneurship
Offers mentoring, experiential learning, collaboration opportunities, and events to set you on the path of blazing your own trail.

Minor in Innovation and Entrepreneurship
Offers opportunity to work collaboratively with faculty and students from diverse CMU programs on rapid prototyping and iteration of products and services.
The flexibility of elective courses, the support of the faculty, and the commitment of my adviser allowed me to create my own degree program. And that gave me the skills and confidence to launch my own business.”

Alysia Finger
Entrepreneur, Class of 2014
Business Administration (Graphic Media Management) and Transmedia Communications
Co-Founder and CEO, AE Dreams
AN UNMATCHED APPROACH TO BUILDING IN-DEMAND SKILLS.
The Tepper School has prepared me for future success in my career through a well-rounded approach by encouraging students to learn inside the classroom and outside the classroom. We are encouraged to go out and explore other programs on campus, whether it be the computer science, or math, or computational finance, and add... an innovative component to your business education that adjusts to your interests. That’s why everyone here says, “Tepper is what you make it.” From the amazing things that happen here, it’s not an overstatement to say that Tepper means success.”

Undergraduate Business, Class of 2022
STATEMENT OF ASSURANCE

Carnegie Mellon University does not discriminate in admission, employment or administration of its programs or activities on the basis of race, color, national origin, sex, handicap or disability, age, sexual orientation, gender identity, religion, creed, ancestry, belief, veteran status or genetic information. Furthermore, Carnegie Mellon University does not discriminate and is required not to discriminate in violation of federal, state or local laws or executive orders.

Inquiries concerning the application of and compliance with this statement should be directed to the university ombudsman, Carnegie Mellon University, 5000 Forbes Avenue, Pittsburgh, PA 15213, telephone 412-268-1018.

Carnegie Mellon University publishes an annual campus security and fire safety report describing the university’s security, alcohol and drug, sexual assault and fire safety policies, and containing statistics about the number and type of crimes committed on the campus, and the number and cause of fires in campus residence facilities during the preceding three years. You can obtain a copy by contacting the Carnegie Mellon Police Department at 412-268-2323. The annual security and fire safety report also is available online at www.cmu.edu/police/annualreports.

Information regarding the application of Title IX, including to admission and employment decisions, the sexual misconduct grievance procedures and process, including how to file a report or a complaint of sex discrimination, how to file a report of sexual harassment, and how the university responds to such reports is available at www.cmu.edu/title-ix. The Title IX coordinator may be reached at 5000 Forbes Ave., 140 Geyert Hall, Pittsburgh, PA 15213; 412-268-7125; or titx@cmu.edu.

For more information regarding the statement of assurance please visit www.cmu.edu/policies/administrative-and-governance/statement-of-assurance.html.
